Telegram from Supervisor Rossi.

January 4, 1926.

Board of Supervisors, care John S. Dunnigan, San Francisco, Cal.

Regret exceedingly my inability to be present at the last meeting of the old Board. I am pleased to say that I am proud of my record as a city official and have no apologies or regrets to offer or the shedding of tears as anticipated by Supervisor Welch, but, on the other hand, I feel grateful to the people of San Francisco for the great honor and privilege accorded me to serve them during past four years. I retire from the Board of Supervisors with the most kindly feeling towards all and with the knowledge that in the recent campaign I made an honorable and gentlemanly fight and with the further feeling that I served the people conscientiously and unsefishly with only one thought in mind, the civic betterment of San Francisco. As a private citizen I shall continue in that direction. My very best wishes for a Happy New Year to his Honor the Mayor and the old as well as the new members of the Board.

ANGELO J. ROSSI.

Statement of Former Supervisor Ralph McLeran.

The following statement by former Supervisor Ralph McLeran was, at his request, ordered *spread in the Journal*:

Supervisor McLeran: Mr. Mayor,

my colleagues on the Board of Supervisors and my fellow citizens: Mr. Mayor, may I ask permission to have inserted in the Journal the few words that I might say? I have been honored by the citizens of San Francisco on five different occasions, covering a period of sixteen years, to serve them as a member of this Board of Supervisors. And all during those years I have rendered to the people of San Francisco that service, for the benefit of all of the people of San Francisco, that, in my judgment, was for the best interests. I feel, Mr. Mayor, and my fellow citizens, that there is no man or no person ever retired from public office with more satisfaction than I am retiring from it at the present time. During these years of public service, I have had the privilege and the honor of participating in the large constructive public improvements that have been put forward during these years. It has been my pleasure, my privilege and my honor to have contributed the first $100 that was raised by the citizens of San Francisco toward a fund of $15,000 for the acquiring of the Hetch Hetchy property from Elmer Smith on the floor of the valley that is now flooded by one of the finest lakes of water in this world. It has been my privilege and pleasure to have participated at the first meeting of the Rolph Board of Supervisors, fourteen years ago, in the Mills Building, in laying out the scheme of the Civic Center, before Mayor Rolph took office, after he was elected. It has been my privilege and pleasure to have attended the breaking of the ground for all of these public buildings that have been constructed within our Civic Center. And, as a member of the Board, I have purchased all of the four million dollars' worth of property that has been purchased, upon which these buildings now stand. In 1908, we conceived the idea of building a new building, known as the San Francisco Hospital, which has been builded, and is recognized to be one of the finest hospitals in the world. There have been some disappointments during my career as a public official, and one of the disappointments was the refusal of the people of San Francisco, in 1909, to purchase the property of the Spring Valley Water Company for $34,500,000, which included all of their holdings, lock, stock and barrel. By a small margin, less than 6000 votes, the people refused to buy those properties. Since that time you have been called upon, on three different occasions, to purchase those properties, and when you have had the opportunity to purchase the properties, more than twenty million dollars' worth of those properties has been eliminated, and taken from the $34,500,000 offer, making it $54,500,000. It was unfortunate for the people of San Francisco that that project was defeated at that time because, by the defeat of that project, you deprived yourself of $20,000,000 worth of property that you would have owned now, that you never can and never will have the opportunity of buying. Notwithstanding the fact the we have lost that opportunity, the time is going to come, in the near future, that you must buy those properties or you will pay $20,000,000 more for them after the present option expires.

Another disappointment: At the time that we proposed the $8,000,000 bond issue for the development of this Civic Center, it was estimated that the cost at that time would be $10,000,000, but, fearful that the project might be defeated, on my recommendation the amount was reduced from $10,000,000 to $8,000,000, which was a mistake on my part because it was overwhelmingly carried at $8,000,000, and I believe the people would have voted ten or twelve million dollars. But since that time we have been gradually acquiring additional property in the Civic Center. We have opened up Hyde street, we have partly opened up Leavenworth street, and the scheme is so far advanced that no Board of Supervisors will dare to retard the completion of this beautiful Civic Center which has been recognized by artists the world over as the finest Civic Center in the world. It has been my pleasure to furnish data to municipalities, such as Detroit, Los Angeles and other large cities so that they may pattern after San Francisco and do for their cities what San Francisco has done for herself. Recently, in Los Angeles, they have voted a bond issue of $35,000,000 for a development of a Civic Center which will not compare with what we have in San Francisco.

Mr. Mayor, prior to the exposition, when you demanded of the Board of Directors that they must give San Francisco $1,000,000 before you would sign those bonds, I concurred in your stand, with the result that the exposition board of directors were forced to give San Francisco $1,000,000 toward the building of an auditorium. After the money was placed in escrow, it developed that the $1,000,000 would not complete the building in accordance with the scheme of the Civic Center, and it was on my recom-

mendation that the Board of Supervisors added to the $1,000,000 an appropriation sufficiently large to put the granite front on the Civic Auditorium. It might be of interest to the incoming members of the Board to know that, sooner or later, the Auditorium will be finished on the inside. The temporary ceiling that is now there is made of canvas and that will be replaced by a permanent structure to correct the acoustics of that building, which will cost approximately $75,000 or $100,000.

It has been my privilege and my pleasure to be active in the development of the Stockton Street tunnel and the Twin Peaks tunnel, for the benefit of all of San Francisco. And while I have been honored on five different occasions, by the people of San Francisco, in selecting me as a representative on this Board, I feel, with a great deal of satisfaction, that I have rendered the best service that I knew how to render. The people of San Francisco, as a whole, have been kind to me, and I hope that those things that have been started, and that are well under way, those things that I have participated in, will reflect more credit upon me than is appreciated at the present time. To the incoming members of the Board I wish them success. I hope that they will be able to accomplish more, as years go on, than I have been able to accomplish in the past. To my colleagues who are about to retire with me, and to the hold-over members of the Board, I want to extend to them my heartfelt thanks for the confidence that they have shown in me, by honoring me as chairman of the Finance Committee for the past eight years. To the county officials, and to the employees of all of our city departments, I want to extend to them my appreciation for the sincere cooperation that they have extended to me during my term as head of the Finance Committee of our city government.

There are many big problems, Mr. Mayor, that the new Board has to complete before San Francisco will come into its own. There are four major problems that are outstanding: The earliest possible completion of Hetch Hetchy in order to avoid a water famine in San Francisco; the solving of the embarrassing transportation problem; the regulating of the traffic; and the solving of the problem of our hydro-electric energy. Those, in my judgment, are the four major problems that are confronting the Board of Supervisors, and it is not hoped, neither is it expected, that they are going to be solved over night. It is going to take years of labor, years of study and years of united effort on the part of all of the members of the Board, backed up by the citizens of San Francisco, by going to the polls and voting bonds, to complete these projects.

Mr. Mayor, it has been a real pleasure for me to have served with you, to have conferred with you from time to time, to have counseled with you in helping to solve problems confronting the City and County of San Francisco. Your requests have been few, they have been most modest. And if I have been of assistance to you in solving the difficult problems that have come to your office from time to time, it has been a great pleasure and a satisfiction for me to know that I have enjoyed your confidence and respect. At the results of the last election I have no regrets. The only regrets that I have, my fellow citizens, is at the disappointment of my friends. Again, I want to repeat that I am retiring from public office with the full satisfaction and confidence in my own heart, that I have done the best that I could for the people of San Francisco, and I am willing, as a private citizen and as a taxpayer, to support all these propositions that have for their end the future development and the continued prosperity of San Francisco. I thank you, Mr. Mayor, and members of the Board, and my fellow citizens, for the opportunity of saying these few words to you before I, officially, make my exit.

Remarks of Members.

The Mayor: Has any member of the old Board anything to offer before the new members of the Board take their seats?

Supervisor Bath said in part: It will be many a year before some of the good work by the old Board will cease to be reflected in the history of San Francisco. He welcomed the new Board but stated that it would be very difficult for any new Board of Supervisors to follow the footsteps of the old Board in the matter of constructive work. He referred especially to the work done under Mayor Rolph's administration, backed by such men as Ralph McLeran, John A. McGregor, Miss Morgan, Eugene Schmitz, Angelo Rossi, Frank Robb and John Wetmore.

Supervisor Wetmore called attention to the conscientious work done by him during his four years as Supervisor, to the best of his ability. He purchased, within the last two years of his administration $2,000,000 worth of property, mostly in small lots for the School Depart-

ment; some for the parks and playgrounds. He retires without any feeling of regrets. There was nothing personal in the work that he done, feeling that he was doing something for the city he loved.

Supervisor Morgan thanked the Mayor and the old Board of Supervisors, stating how proud she was to be a member of the Board. She declared that it was her earnest hope that the incoming Board of Supervisors would give serious thought to the establishment of a commercial air port. She hoped that "Margaret Maryland," the Hetch Hetchy Municipal Camp named in honor of her, would retain the same name, in order to leave some mark behind, in remembrance of the first woman legislator, and the one that was honored among the women first. She extended her thanks to the Clerk of the Board and his staff for the courtesies extended during her administration and expressed the belief that the City should have its own power-distributing plant. She hoped that the $2,000,000 a year received from sale of the hydro-electric power should be saved to go towards the construction of a municipal distributing plant.

In the absence of the Mayor, the Clerk shall call the roll and the Board shall appoint a presiding officer pro tempore from its own members, who shall have the same right to vote as other members.

The presiding officer shall preserve order and decorum.

The Clerk shall, immediately after the call to order, call the roll of members of the Board, and the record of those present and absent shall be entered upon the Journal.

4. Whenever it shall be moved and carried that the Board go into Committee of the Whole, the President shall leave the chair and the members shall appoint a chairman of the Committee of the Whole, who shall report the proceedings of said Committee.

5. The rules of the Board shall be observed in the Committee of the Whole except the rules regulating a call for ayes and nays and limiting the time of speaking.

6. A motion, in Committee of the Whole, to rise and report the question, shall be decided without debate.

7. The Clerk shall have clips, upon which shall be kept all Bills, Ordinances, Resolutions and Reports to be acted upon by the Board, except those not reported upon by a Committee.

8. No Bill, Ordinance or Resolution shall be considered by the Board unless it has been introduced by a member of the Board or by a committee of the Board, and the Bill, Ordinance or Resolution must be read by the Clerk in open meeting before being referred to committee. At the time of introduction the presiding officer shall first indicate to what committee a Bill, Ordinance or Resolution ought to be referred, and it shall be so referred unless, upon a majority vote without debate, the Board shall order it referred to some other committee.

Action by the Board shall not be taken upon any Bill, Ordinance or Resolution until it has been referred to and acted upon by a committee of the Board.

9. The Order of Business, which shall not be departed from except by the consent of ten members, shall be as follows:

No one other than a member of the Board or an ex-Mayor shall be permitted to address the Board except in Committee of the Whole Board, or if otherwise provided by the Charter.

11. If any question under debate contains several points, any member may have the points segregated and acted upon separately.

12. When a motion has been made and carried or lost, it shall be in order for any member voting with the prevailing side to give notice that he will move for reconsideration thereof. Such notice shall be entered in the Journal and placed upon the Calendar at the succeeding meeting.

A member may change his vote before the result is announced in order to give such notice of reconsideration. No question shall be reconsidered more than once and notice of reconsideration shall apply only to the main question. It shall require a majority vote to carry any motion to reconsider the vote by which any Bill, Ordinance or Resolution has been passed or defeated. A Supervisor, after a notice to reconsider is given, may, at the reconsideration thereof, present the main question in his argument thereon, and the same may be debated by the Board, provided that the subject matter is debatable.

he shall proceed to speak. No Supervisor shall be recognized when seated or when away from his seat.

18. No Supervisor shall speak more than twice in any one debate on the same day, and at the same stage of the Bill, Ordinance, Resolution or Motion without the consent of a majority of the Board, and Supervisors who have once spoken shall not again be entitled to the floor so long as any Supervisor who has not spoken desires to speak. No Supervisor shall be allowed to speak more than five minutes on any question except by leave of a majority of the Board, except that the author shall have five minutes to open and ten minutes to close.

19. No Supervisor shall be interrupted when speaking, and no question shall be asked him except through the presiding officer, and the speaker shall decide if, or when, he shall answer.

20. The author of a Bill, Ordinance, Resolution or Motion shall have the opening and closing of the debate.

21. When two or more Supervisors arise at the same time to address the Board, the presiding officer shall designate the Supervisor who is entitled to the floor.

22. No motion shall be debated until the same has been seconded and distinctly announced by the presiding officer.

23. After a motion has been stated by the President, it shall be deemed to be in the possession of the Board, but it may be withdrawn by the mover thereof, with the assent of the second, before it is acted upon.

24. Upon a call of the Board the names of the members shall be called by the Clerk, and the absentees noted. Those for whom no excuses or insufficient excuses are made may, by order of those present, be sent for and be brought to the Chambers of the Board by the Sergeant-at-Arms or by special messengers appointed for the purpose. Proceedings under the call may be dispensed with by the vote of a majority of the members present.

25. When a question is under debate, no action shall be entertained except:

To adjourn.
Call of the Board.
To lay on the table.
The previous question.
To postpone to a certain day.
To commit or amend.
To postpone indefinitely.

which several motions shall have precedence in the order in which they are arranged; provided, however, that during a call of the Board it may consider and transact any matter or business that the Supervisors there present shall unanimously decide to consider, but no call of the Board shall be had during a call of the Board on any matter or business so taken up or considered while the Board is under call.

26. A motion to adjourn is not debatable.

27. The previous question shall be put in the following form: "Shall the previous question be now put?" It shall only be admitted when demanded by three Supervisors, and its effect shall be to put an end to all debate except that the author of the Bill, Ordinance, Resolution or Motion or Amendments shall have the right to close, and the question under discussion shall thereupon be immediately put to a vote. On a motion for the previous question prior to a vote being taken by the Board a call of the Board shall be in order.

28. Every member present when a question is put shall vote for or against it, unless disqualified by Charter provision the Board shall excuse him from voting, or unless he is interested in the question. But no member shall be permitted to vote upon a question unless present when his name is called or before the vote is announced. A Roll Call shall not be interrupted for debate or

personal privilege, but a member may file, in writing, an explanation of his vote.

29. If any member, in speaking, or otherwise, transgresses the rules of the Board, the presiding officer shall, or any member may, call him to order, in which case the member so called to order shall immediately sit down, and, if called to order by a member, such member shall immediately state the point of order. If the point of order be sustained by the chair the member shall not be allowed to proceed, but if it be not sustained then he shall be permitted to go on. Every such decision from the chair shall be subject to an appeal to the Board, but no discussion of a question of order shall be allowed, unless an appeal be taken from the decision of the chair. The question on appeal shall be: "Shall the decision of the chair stand as the decision of the Board?"

If any member be called to order for language spoken in debate, the person calling him to order shall report the words excepted to and they shall be taken down in writing by the Clerk, and no member shall be held to answer, or be subject to censure by the Board, for language used in debate if any member has spoken or other business has intervened after the words are spoken and before exception to them shall have been taken.

30. After the Board has acted, the names of those who voted for and those who voted against the question shall be entered upon the Journal, not only in cases required by law, but when any member may require it, and on all Bills, Ordinances and Resolutions on final passage the ayes and nays shall be recorded.

31. All appointments of officers and employees shall be made by a majority of the members of the Board. 37. Except when otherwise provided by these rules, the Charter or law, a majority vote of the members present shall be necessary for the adoption of any motion.

38. On any questions or points of order not embraced in these rules the Board shall be governed by the rules contained in Robert's Rules of Order.

39. Before taking up any other business that has not been especially set for a time certain, all matters on the calendar shall be disposed of.

40. In calling the roll the Clerk shall call only the surnames of the members, prefixing the word Supervisors to the surname of the Supervisor first called.

41. No smoking shall be permitted in the chambers of the Supervisors during the sessions of the Board.

42. The Clerk shall keep a record of all requests and instructions directed by the Board of Supervisors to any officer or board of the City and County and the action thereon of such officer or board. Traffic Survey Committee Report.

The following was presented, referred to the Traffic and Finance Committees jointly and ordered *spread in the Journal*:

San Francisco, Cal., Jan. 2, 1926.

To the Honorable Board of Supervisors, City and County of San Francisco, City Hall, San Francisco, Cal.

Gentlemen:

Emergency measures to improve traffic conditions on certain streets where the greater number of vehicular deaths and injuries are taking place are necessary of adoption by the Board of Supervisors.

The San Francisco Traffic Survey Committee, organized following publication of a report by Coroner Leland showing a disproportionate number of traffic accidents on certain San Francisco thoroughfares, has just completed a preliminary survey of traffic conditions. Represented on this committee are the San Francisco Police Department, District Attorney, Coroner, California State Automobile Association and the City Traffic Commission. This committee appointed a subcommittee consisting of C. C. Cottrell, consulting engineer California State Automobile Association, Captain Henry Gleeson, commanding Traffic Bureau, and Coroner T. B. W. Leland, to survey the thoroughfares requested and to make the necessary recommendations to improve conditions.

This subcommittee has made the enclosed report, which has been unanimously approved by the general committee. This report is being transmitted to the Board of Supervisors with the hope that your Honorable body will give it the consideration it merits.

It is the earnest desire of the committee that the small appropriation necessary to reduce traffic deaths and injuries be made available at the earliest possible moment to the end that the lives of San Francisco's citizens are more adequately protected.

Very truly yours,
SAN FRANCISCO TRAFFIC SURVEY COMMITTEE,
Theodore J. Roche,
Chairman.
D. V. Nicholson,
Executive Secretary.

To the Members of the San Francisco Traffic Survey Committee:

Gentlemen:

Your sub-committee, consisting of Messrs. Gleeson, Leland and Cottrell, have now completed an investigation of the causes of a disproportionate number of traffic accidents on certain San Francisco streets and they have inspected those streets with the idea of recommending certain things,

which, if adopted and put into effect, cannot help but cause a reduction in the number of accidents.

It should be borne in mind that this preliminary investigation and survey has been made at this time for the specific purpose of caring for an acute situation and should not be confused with the larger one which we believe will consume several weeks' time and permit of the delving into other pertinent elements which the shortness of time now prevents.

The things recommended in this report, however, are certain of need and cannot but become a part of any recommendations which would be made as a result of a more exhaustive investigation. Also, we are of the opinion that the items herein recommended consist by far of the more important items.

The streets under consideration in this report are: Geary from Presidio avenue to the Beach; Fulton street from Masonic avenue to the Beach; Valencia stret from Market street to Mission street; Mission street from Valencia street to the County line.

We are of the opinion that the installation of more adequate safety zones and better street lighting in connection therewith, together with marked pedestrian lanes, are vitally needed on all these streets.

It should come about to be a slogan that a safety zone be sacred both day and night and whether or not occupied. With that idea in mind we have attempted to develop our ideas along the line that such a zone could be be easily discerned by the motorist and become a hazard to him if ne ignored its existence. In only that way can a pedestrian be protected.

We are also of the opinion that the white paint marks now used on pavements be supplanted as rapidly as possible by visible metal markers placed in the pavement.

There are three types of zones to which we have given consideration. Our recommendations, so far as specifications are concerned, are purposely broad for the reason that there are many types in existence and so far no one has demonstrated its worth to the exclusion of others.

Type A is a protected zone having the equivalent of three iron posts on the traffic end and two iron posts on the side facing the curb, making five in all. The posts on the traffic end are to be provided with red reflectors. The lines between the posts are to be marked with metal markers and the whole to be thoroughly flood-lighted from above. This zone is estimated to cost, installed in quantities of ten or more:

5 posts	$225
1 flood-light with connection..	175
markers	5
	$405

Type B zone is to have three large metal corrugated buttons with reflectors on the traffic end and one plain one on each traffic side and lower end. The lines between buttons to be marked with metal markers. Where the existing street lighting system is inadequate to make this easily discerned under all conditions, this zone is to likewise have a flood-light. The estimated cost for type B zone is:

5 buttons installed	$55
markers	10
	$65

If type B is to be flood-lighted $175 should be added, making a total of $240.

Type C zone is to consist merely of a marked enclosure using therefor metal markers fastened into the pavement and is estimated to cost $10.

Our recommendations are that the following streets should have the number and type of zones following:

Geary, Presidio to Beach: 9 type A; 14 type B; 19 type B, unlighted.

Fulton, Masonic to Beach: 3 type A; 12 type B; 12 type B, unlighted; 22 type C.

Valencia, Market to Mission, 16 type B; 16 type B, unlighted.

Mission, Valencia to County line: 20 type B; 17 type B, unlighted.

A total of 12 type A; 62 type B; 64 type B, unlighted; 22 type C.

The total estimated cost for the installation of these zones is as follows:

12 type A zones at $4.05....	$ 4,860
62 type B zones, lighted, at $240	14,880
64 type B zones, unlighted, at $65	4,160
22 type C zones at $10.....	220
	$24,120

To this estimate should be added a lump sum of $750 to mark pedestrian lanes outside of the above zones.

Contingencies 10 per cent..	$ 2,487
Total for zones and pedestrian lanes	$27,357

As mentioned above, there are many safety appliances on the market today and more are con-

stantly being conceived. It is only through trial and experience that the best can be determined. The Police Department should have an experimental fund forthwith of not less than $2,000 with which to make these investigations and determinations. The money is not wasted in any degree, for aside from the knowledge gained, protection is being afforded the public in the very experimentation. This fund is not so much needed for the streets under consideration in this report as for others which will be considered in future by this committee.

Then there is the maintenance expense on the safety zones which can only be approached on a time basis. Our information in this respect is rather meager but we believe for the ensuing year the sum of $5,000 should be made available for the work herein contemplated.

In our investigation we find that the Police Department is poorly supplied with repair equipment for this work. A cart and old fire horse is not only obsolete but expensive. We, therefore, suggest an appropriation of $1,800 for a light truck. This, of course, would not only apply to the work under discussion but to the whole city as well.

To sum up, our estimate is:

Safety zones and pedestrian lanes	$27,357
Experimental work	2,000
One year maintenance.....	5,000
Small truck	1,800
	$36,157

In conclusion, we suggest to this committee that the Supervisors immediately make the above sum available for the purposes above outlined.

Respectfully,

C. C. Cottrell,
Consulting Engineer California State Automobile Association.

Captain Henry Gleeson,
Commanding San Francisco Traffic Bureau.

Dr. T. B. W. Leland,
Coroner.

Statement by Finance Committee.

The following statement was presented and read by Supervisor McSheehy, chairman of the Finance Committee:

Mr. Chairman, my Colleagues and Fellow-Citizens: The members of the Finance Committee wish to thank the Board of Supervisors for the confidence you have reposed in them by electing them as members of this important committee, and we will endeavor to express our appreciation by constant cooperation with the entire membership of the Board for the purpose of giving to San Francisco a constructive, progressive, economic administration.

Taxes.

A great many problems will confront us which will require the cooperation not alone of all of the members of this Board, but of all of the executive branches of the city government. Taxes must be reduced. The extent of the reduction will depend to a very considerable degree upon the spirit of cooperation displayed by the various city departments. The one-twelfth act should be rigidly enforced and no requests for appropriations should be granted except those provided for in the budget. Efficiency in all departments must be kept to a high standard and salaries which are adequate to insure efficiency should be paid. Surpluses and unbudgeted receipts should be placed in a fund to carry out the Charter provision for the payment of judgments. These judgments should be paid off as soon as possible, for they bear interest at 7 per cent, which results in a loss to the City of 2 per cent, amounting to thousands of dollars annually.

Hetch Hetchy Water Supply.

San Francisco is one of the few cities in the United States that does not own its water and electric distribution plants. Fifty million dollars have been spent for the purpose of bringing water and power to San Francisco. Ways and means must be devised to enable the City of San Francisco to serve its citizens through its own lines with water and power from Hetch Hetchy. The Committee feels that the first step in carrying out this program should be the construction of a transmission line from Newark to San Francisco and of the necessary step-down stations which will make the power available for distribution in San Francisco.

Water.

We believe that a mistake was made in breaking off negotiations with our sister city, Oakland, when that municipality was considering the purchase of Hetch Hetchy water. There is sufficient water now in storage at Hetch Hetchy to supply the entire Bay region, and the burden of financial responsibility which San Francisco has assumed for the development of this great project could be reduced to a very important extent if the other Bay cities were permitted to utilize a portion of our surplus water. The Committee hopes that negotiations may be resumed with the cit-

ies of the east Bay district for the disposal of this surplus water.

Highways.

The Chinese wall surrounding San Francisco must be pierced. Practical plans to bridge the Bay, provide highway outlets, and improve transportation will have the vigorous support of this Committee. A new Committee, known as the Traffic Committee, has been formed by the Board, and we, the members of the Finance Committee, can assure this Committee that we will cooperate with them in every way.

Cooperation.

Cooperation and harmony are essential to the successful management of any business, and the management of this City is the most important business that any group of San Francisco citizens is engaged in. The Committee commends the new rule of the Board providing that each committee of this Board which deals with the affairs of any City department shall discuss with the offirials of that department at the annual budget making the requirements of the department and make recommendations concerning those requirements to the Finance Committee. This rule, we believe, will result in closer cooperation and better understanding between the committees of this Board and the various City departments.

Every member of this Board is a committee chairman and in addition holds membership in two committees on this Board, and the Finance Committee earnestly hopes that all the committees will cooperate for the upbuilding of this great City.

In closing, we pledge to you and to all the citizens of San Francisco that we will devote to the financial affairs of this City the same personal attention which we would give to our own private business.

Resolution of Policy.

Supervisor Welch presented:

Resolution No. 25022 (New Series), as follows:

Whereas, during the recent municipal campaign certain declarations of policy respecting the conduct of municipal affairs were made by those who were candidates for the office of Supervisors, and

Whereas, the result of the election was the acceptance of those policies so declared; therefore,

Resolved, That we hereby reaffirm it to be the purpose of the majority of this Board and we pledge our acts to conform to the following:

1. An investigation into the present financial condition of the City with a view of securing a surplus of revenue during the present fiscal year. An early consideration of the budget that mature consideration may be given to all demands for expenditures, and the restriction thereof to actual necessities and needed improvements that the burden of taxation may be lessened.

2. Plan for early use and distribution of the Hetch Hetchy power output by the City of San Francisco.

3. To study the transportation systems with a view of being prepared to handle the situation that will surely exist when a number of the present street railway franchises expire in 1929. Unless there is such a preparation the condition will be chaos and it will be left to the private company to establish order to their advantage and to the City's disadvantage.

4. Attention to the water supply with a view to the utilization of our Hetch Hetchy source at the earliest possible moment. Investigation into the existing relation with the Spring Valley Water Company.

5. The making of a regional plan for the development of the peninsula with a view of the upbuilding of an industrial and commercial city of the first magnitude, including a comprehensive system of highways and bay bridges connecting this city with the Sacramento, San Joaquin, Livermore, Sonoma, Napa and Santa Clara Valleys, and the interior of the State. Reclaim peninsula tide lands for commerce and industry and keep our shipping and payrolls in San Francisco. Removal of obstructions to shipping at the entrance to and within the Harbor of San Francisco by the Federal Government. Local ownership and control of our harbor, the City's greatest asset.

Adopted by the following vote:

Ayes — Supervisors Badaracco, Bath, Gallagher, Harrelson, Havenner, Kent, McSheehy, Powers, Roncovieri, Schmidt, Shannon, Stanton, Todd, Welch—14.

Absent — Supervisors Colman, Deasy, Hayden, Marks—4.

MESSAGE OF HIS HONOR MAYOR ROLPH.

The following message from his Honor Mayor Rolph was read by him, to the Board and ordered spread in the Journal and Municipal Record:

San Francisco, Cal., January 4, 1926.

To the Honorable Board of Supervisors of the City and County of San Francisco.

Gentlemen:

Today witnesses the assumption of office in our Municipal Government by those chosen by the people at the recent election to represent them in their public affairs.

It is customary in all legislative bodies for the Chief Executive to deliver what is termed a message to those with whom he expects to work in carrying out his administration's plans.

It is, therefore, my privilege and pleasure today, after fourteen years as Mayor of this wonderful City, to submit to you my biennial message, reviewing briefly the recent accomplishments of our municipality and outlining, in suggestions to you, what I hope may be accomplished in cooperation with your Honorable Board.

The events of the recent municipal campaign are still fresh in the minds of all of us. The voters, when they elected to office the incoming members of the Board, did so on pledges made by them that they would lower taxes, with economy and not parsimony, and that they would provide speedy distribution by the City of the power we have developed at Moccasin Creek and of which we are now disposing, on a day-to-day basis, under a temporary agreement with the Pacific Gas and Electric Company.

As Mayor I shall lend all possible assistance to the furtherance of any practical plans advanced to produce these results, as I have heretofore publicly stated. The business of the City and County of San Francisco is one of the biggest business enterprises in the West, and united effort is required to meet the great problems which constantly arise. The issues before us are too vital to permit of a divided government, and I sincerely hope that all distinction between "majority" and "minority" on the Board of Supervisors may be eliminated.

We cannot be parsimonious in the matter of public improvements. We cannot cut down expenses when that means, for instance, to deprive our children of proper schools and recreational facilities. San Francisco is a great and growing metropolis and our property values are steadily increasing year by year. To enjoy such a status as this some sacrifices must be made, and the people themselves must decide whether they want the City to advance or to lie dormant.

San Francisco must not and cannot lose its stride. To do so would be not only to halt its progress, but would be a movement backward. To advance San Francisco at all times, without personal ambition, I pledge myself to cooperate in every possible way with your Honorable Board.

Outgoing and Incoming Members:

In accepting public office of any kind one does so with the full realization that one's most zealous and unselfish efforts may be misunderstood, and that the time comes when all of us must retire to private life. The will of the people is the law, and it is the expression of this will that has, in most instances, made the changes today taking place.

To those members of the Board of Supervisors who are retiring from office I offer my heartfelt thanks for the years of conscientious endeavor they have put forth in the interest of the public good.

To the incoming Supervisors, who today assume office—Supervisors Andrew J. Gallagher, Frank R. Havenner, Milo F. Kent, Milton Marks, Charles J. Powers, Walter Schmidt, William Stanton and Charles F. Todd—I express the hope that their future public careers may be replete with worth-while accomplishments for the City which they have been chosen to serve.

Appointment of Commissioners:

Each year, at this time, vacancies occur in the several Commissions whose members are appointed by the Mayor, and it has been my custom to announce my choice of appointees at the reorganization meetings of your Board. I do so today in formally announcing the appointment of the following:

Term beginning December 23, 1925:
City Planning Commission—Hon. Matt I. Sullivan.
Term beginning December 28, 1925:
Board of Public Health—Arthur M. Sharp.
Term beginning January 4, 1926:
Board of Supervisors—Andrew J. Gallagher.
Civil Service Commission—Hugh K. McKevitt.
Fire Commission—P. W. Meherin.
Traffic Commission—John H. Dumbrell.
Election Commission—James K. Prior.
Police Commission—Dr. Thomas E. Shumate.
Park Commission—M. Earl Cummings.

Departmental Accomplishments and Future Plans:

In preparing this message to your Honorable Board I have made a very careful survey of the accomplishments of the various departments under my jurisdiction and of their plans for future developments.

I shall give to you the result of this survey, with my recommendations and the respectful request that you allocate the various ideas to the respective committees of your Board having to do with them, in order that full investigation may be made and that the entire Board may have the opportunity of passing upon them.

Hetch Hetchy:

In numerous messages addressed to your Honorable Board in the past I have mentioned the Hetch Hetchy project and have specifically called attention to the necessity of providing municipal distribution of our power. In my message of January 7, 1924, when I assumed office for the fourth consecutive term, I said:

"This power is of the utmost importance, for the income from its disposal, after the bonds have been retired, will be of great profit to the people.

"For this reason, as well as in accordance with the provisions of the Raker Act under which Hetch Hetchy development is proceeding, and in line with the policy of the Board of Supervisors, the power must be brought into San Francisco at the earliest possible moment and if necessary the Charter should be so amended as to provide for its distribution by the municipality."

During the past year, as you know, the power house at Moccasin Creek has begun to function. The people of San Francisco are receiving $6,000 daily from the temporary disposal of the power, and there has been deposited in the City Treasury some $800,000 from this source to help lighten the burden of the taxpayer.

The evaluation proceedings looking toward the acquisition of either or both of the existing local electrical distributing systems are going forward and should be completed shortly. Thereafter the people of San Francisco must determine whether or not they will issue bonds to acquire a distributing system by purchase or construction. Our utmost energies must be directed to this end, and if the evaluation proceedings are not speedily completed, independent action by your Board should be instituted to condemn these properties.

Most satisfactory progress has been made on the western 22 miles of the Hetch Hetchy project, including the Pulgas tunnel, the transbay pipe line and the Dumbarton bridge, which brings water from Niles to the Crystal Springs reservoir. The 21 miles of 5-foot pipe line has been performing a useful service by bringing

available Spring Valley water to us from the East Bay, pending its carrying our projected supply of Hetch Hetchy water. For the use of the line the Spring Valley Water Company is paying the City an annual rental.

Despite its being supplemented by the completion of the Calaveras dam, our present supply from Spring Valley is wholly inadequate. I am today informed that there is less than 100 days' water supply in storage in the water company's reservoirs!

A little over a year ago the people voted $10,000,000 in bonds for carrying on the construction of Hetch Hetchy tunnels through the foothills from Moccasin Creek to the San Joaquin Valley, and for other units of the project. The Board of Public Works and the City Engineer are bending every energy to the completion of this work, and it behooves the Board of Supervisors to cooperate in every way to provide the necessary legislation. Moreover, the City Engineer has asked for an adidtional bond issue of $24,000,000 so that Hetch Hetchy water may be brought to the very doors of our citizens.

The Spring Valley distributing system must be acquired or the City must construct a competitive system at a stupendous cost. There must be no delay. When Hetch Hetchy water arrives we must be ready to distribute it. The purchase of the Spring Valley properties will add no burden to the taxpayer; on the contrary, the revenue from this source not only should pay the interest on the purchase price, but should also contribute largely to paying the price of purchase itself.

At present the Spring Valley Water Company has storage reservoirs at high levels in the City with a combined capacity of 125,000,000 gallons. The City Engineer has prepared definite plans for the City's development of three large future reservoirs—located respectively at Amazon street, Glen Park and Ocean avenue —which, combined, will hold one billion gallons.

Our lesson of 1906 and the Santa Barbara disaster of 1925 have shown us the necessity of providing these storage reservoirs so as to have a substantial supply of water always on hand in the City in case of calamity and the injuring of the transit pipe lines in San Mateo County.

Your Board has shown commendable interest in helping to secure most of the land for these reservoirs, and I trust that you will cooperate further by securing the remaining lands and in undertaking at an early date the actual construction of at least one of the reservoirs.

Municipal Railways:

At the recent election a proposal for the purchase by the City of the Market Street Railway Company's properties was overwhelmingly defeated. Unless meanwhile the people, voting again, accept the purchase plan, the City will not come into possession of any of the company's tracks until the expiration of the first 150 miles of franchise in 1929. Thereafter the people must pay for the rails, rolling stock and equipment if they desire to use them.

Meanwhile several growing sections of the City are suffering from lack of adequate street railway transportation.

Among them is the Sunset District. Your Honorable Board has appropriated $500,000 toward the $567,000 estimated cost of running rails through Duboce tunnel. To operate this line will require the purchase of a block of land and the erection thereupon of a fireproof carbarn, which, with necessary new equipment, will cost an additional $689,000.

The Richmond District has made persistent and well-founded demands for a Municipal Railway line from Masonic avenue along Turk and Balboa streets to Thirty-third avenue. The City Engineer

estimates the cost of this line at $540,000, and this money should be provided, or the Richmond District be neglected.

Another populous section desiring transportation service is the Excelsior District, which can be reached by the Municipal Railways via Bernal cut and an extension of the Church street line. During the past year your Board has provided $100,000 for the acquisition of a right of way through Bernal cut. Twelve years ago my administration had the foresight, in awarding a franchise to the Southern Pacific Company, to reserve the use of a portion of the railroad's Bernal cut right of way. This street should be widened to 117 feet, sufficient for two Southern Pacific tracks, two Municipal Railway tracks, roadway and sidewalks. The estimated cost is $1,400,000 for excavation and bridging. The cost of track and equipment will be an additional $500,000. Until these improvements are made this district will not be properly served.

Various other districts, such as the Marina, down town and Eureka Valley have equally pressing transportation needs and are entitled to service, so that the construction of some 25 miles of new single track should be undertaken and completed during the present year. This will be supplemented by about eight miles of Municipal bus lines along Monterey boulevard, Potrero Hill, The Embarcadero and Silver avenue.

The Municipal Railway shops, designed originally to accommodate the Geary street lines, are wholly inadequate for the greatly expanded system. It is suggested that the shops should be transferred to a block on the north side of Mariposa street between Bryant and York streets. One-half of this building site was purchased last year, and the remainder should at once be acquired.

To carry out this greatly needed transportation development, which will permit the City to expand and build up as it should, I suggest that a proposed bond issue of $6,000,000 or thereabouts be submitted by your Honorable Board to the people at the first opportunity. The Municipal Railways have to date cost the taxpayers only $306,552.47 for interest, all other expenses having been paid out of the earnings of the system. Bonds amounting to $1,500,000 have been retired and annual interest has been met from the earnings. The City has developed a transportation system commercially worth at least $10,000,000, with only $4,000,000 in bonds outstanding. The system may, therefore, be said to have made $6,000,000 for the people. The extensions which I have recommended should be no burden on the Municipal Railways as the lines pass through populous districts and will all pay as they go.

During December, 1925, the Municipal Railway receipts were a daily average of $9,246.31, which is greater by $397.44 than the daily average in December of the preceding year. The income for 1924 was $3,238,686, and that for 1925 was $3,374,904, an increase of $136,217, or 4 2/10 per cent.

Civic Center:

San Francisco's pride, noted the world over, is the beautiful Civic Center. The development of the Civic Center is by no means complete. Much remains to be done, and with the future needs in mind the City's Board of Consulting Architects has, in communications addressed to the Board of Supervisors, made definite recommendations for your Board's consideration.

These recommendations should receive your immediate attention. It is imperative that without delay a definite policy of Civic Center completion be adopted for the protection of both the City and of the owners of property which must be acquired at the Fulton and Market streets gore. Under a definite program the development may be carried out as funds therefor become available.

The paving of the central portion of the Civic Center plaza has been completed, and the paving of the remainder has been provided

for by your Board. This pavement should be laid without delay, because it adds not only to the beauty but to the utility of the plaza.

The remaining land necessary to open Fulton street through to Market street should be at once acquired and funds provided for the necessary removal of buildings. Delay in this would result in the enhancement of the cost, and probably in prolonged litigation.

The lighting of the dome of the City Hall, and of the colonnades on the eastern facade of our magnificent City home, was accomplished during the year just closed at a cost of $17,000, and the structure has become more than ever the object of pride and admiration. The colonnades on the other three sides of the building should now be lighted, which, together with certain improvements to the present lighting system on the east side, will cost in the neighborhood of $16,000.

War Memorial:

Plans for the erection of a suitable War Memorial group on Van Ness avenue, west of the City Hall, have been progressing steadily. This project should continue to have the earnest cooperation of your Honorable Board, in order that the aspirations of those public-spirited citizens who contributed to it may be realized without unnecessary delay. I join with the recommendation of the Board of Consulting Architects that the architectural character of the Memorial, in view of its relation to the Civic Center, be subject to the approval of the City through its authorized advisors.

Public Schools:

During the past year important events have taken place in the Department of Education, among them the voting by your Board of a generous increase in salary to teachers and other employees; the inclusion of teachers and others in the City's Pension System, and the definite allocation of the $12,000,000 bond issue proceeds and tax moneys, providing about thirty new schools and additions. During the past eighteen months original construction and alterations of nine school buildings have been completed at a cost of $620,706. Now under construction, or alteration, are eleven schools, totaling $5,462,260. Work on seventeen additional schools is being planned for the year just beginning.

Urgent request has been made by the Board of Education to provide adequate housing, within the next few years, for approximately 12,000 junior high school pupils, who are now scattered through the grammar schools and senior high schools or are in unsatisfactory junior high schools. Recommendation is also made that money be provided to construct a high school in the southern section of the City, and one to replace the present Lowell High School, besides three junior high schools—in the west Richmond, the east Richmond and the Fairmount-Holly Park District.

It is estimated by the Department of Education that $1,500,000 a year is necessary to have its building activities meet the necessities of the situation.

Public Health Department:

One of the most important of the City's activities is the conservation and safeguarding of the public health, and this has been done most efficiently by the San Francisco Health Department, through its hospitals and free clinics. It is my pleasure to report that the rate of infant mortality has been materially decreased during the past year through the eleven neighborhood health centers that the Department is maintaining, and it is hoped that provision for more of these clinics may be made in the next budget.

The Board of Health maintains five chest clinics, besides two open-air schools, for tuberculosis sufferers. Plans for the City's

Tuberculosis Preventorium, which is to be located at the Pulgas tunnel site in San Mateo County, have progressed satisfactorily. Some 308 acres of land have been acquired and roads and approaches to the site have been completed. Your Board will shortly receive plans for the first unit of a group of structures and it is estimated that $400,000 should be provided for this purpose, one-half of which was allowed in the current budget. This institution, which will cost $750,000 when completed, will render a service of incalculable value to those of our citizens so unfortunate as to contract tuberculosis.

While the San Francisco Hospital is one of the most efficient institutions of its kind in the United States, its facilities should further be increased. I join with the Board of Public Health in recommending that funds be provided, approximating $400,000, for a new ward with a capacity of 150 beds for the treatment of cancer cases, facilities for the care of which are now inadequate. The Department also seeks additional radium and X-Ray equipment which will cost $100,000. The work of the new psychopathic ward has been most successful, and it is highly desirable that this activity be increased.

Work is proceeding steadily on the new Relief Home Building, costing $1,911,000 and providing six dormitory buildings, each housing 200 persons, besides service buildings. The population of the Relief Home has increased to some 1500 men and women, and the new institution, when completed, will be one of the finest in the land. I recommend to your Honorable Board continued interest in the care of those unfortunates whom this institution serves.

I feel that the time has come when the City, to continue its work of conserving the public health, must provide, possibly by bond issue, for the construction of a Health Department Building in the Civic Center, adjoining the present Central Emergency Hospital, to replace the present overcrowded and unhealthy rented quarters. The estimated cost of such a building, with land and equipment, is $2,000,000.

Parks:

There has been marked activity in the Park Department during the past year, with the cooperation of the Board of Supervisors. New construction has included the Herbert Fleishhacker Pool and Playfield, the Harding Park Golf Course, the new Beach Chalet and the Kezar Memorial Stadium.

Likewise, during the past year, the City acquired, without the expenditure of a dollar, twelve blocks of land at the Marina, through the efforts of the City Planning Commission. This, with four blocks previously donated to the City by stockholders of the Panama-Pacific International Exposition Company, constitutes one of the most picturesque parks in the world.

The City also acquired from the United States Government the Palace of Fine Arts site, approximately ten acres of land in the Presidio Reservation. The only condition of the grant is that the City give the Government a spur-track privilege for the transportation of commodities to and from the Presidio. I urgently request your Board to take all necessary steps without delay to comply with the conditions of the grant, and to restore the Palace of Fine Arts to its original splendor.

Through purchase or condemnation the City should secure the summit of Bernal Heights, lest this famous landmark become disfigured by advertising signs or otherwise. The summit should then be parked and connected with our world-famous boulevard system. During my tenure of office the City has acquired Sutro Heights and the land around the Cliff House and Land's End, the summits of Twin Peaks, Telegraph Hill, Bay View Heights and

the Marina, and has constructed the road to Hunters Point, which should be extended around the Point to Bay View and Railroad avenue. Bay View Park and the summit of Bay View Heights are, like these others I have mentioned, connected with the boulevard system, and beautiful Bernal Heights should likewise be incorporated in this scenic chain.

The Park Commission aspires to the carrying out of a development program in the next ten years which comprises a new 500-acre park in the University Mound section of the Mission, as suggested by the City Planning Commission; the completion of the Aquatic Park at a cost of $1,500,000; purchase of land in the Sunset for a boulevard between Golden Gate and Harding Parks; purchase of land in the Richmond for a boulevard between Golden Gate and Lincoln Parks; the purchase of the Halliday tract in Lafayette Square, and the completion of development of the Yacht Harbor.

The City's program should also include the gradual extension of the Ocean Beach Esplanade and the creation of additional public comfort stations in the various sections of the City.

Playgrounds:

During the first six months of the present fiscal year the Playground Commission has improved and added to the space or equipment of a number of playgrounds, including the Southside, Presidio Heights, Spring Valley, Richmond, Mission, North Beach, James Rolph, Jr., Jackson and Glen Park. Development has included important work on the following new playgrounds: The James Lick, at Twenty-fifth and Noe streets; the Folsom, at Twenty-first and Folsom streets, and the University Mound. Immediate development is also to be carried on at Eighteenth avenue, between Geary and Anza streets, and at property within the Presidio Reservation, not included in the Palace of Fine Arts site, use of which has been given to the City by the United States Government.

One of the most important developments is the purchase of land in Chinatown for use as a playground, thus giving a long-needed recreation center to the children of the Oriental quarter.

From every section of San Francisco requests continue to pour in, backed by long and earnest petitions, for more playgrounds. In order to meet these reasonable requests the Playground Commission has recommended that its income be increased from five cents to seven cents on the $100 tax valuation, and I feel that your Honorable Board should give this request your most earnest consideration. Playgrounds add very definitely to the physical, moral and mental status of the rising generation, and money expended in this way is one of the finest investments the City can make.

Police and Traffic:

Like every other growing city, San Francisco has a traffic problem which constantly becomes more serious, requiring the cooperation of your Board and the various administrative departments of our government for its solution. The establishment of one-way streets has been a help, but it is noted by the Police Commission and Traffic Commission that there is still serious congestion in certain streets, particularly in those where adjacent streets are paved with basalt blocks or cobblestones. Recommendation is earnestly made that these cobbled streets be repaved as soon as possible, in order that they may carry their share of the traffic.

The fact that Market street is our one main artery from Twin Peaks to the Ferry adds to the difficulty of keeping the traffic moving, and this inspires me to recommend again to your Honorable Board, as I have done several times in the past, the early construction of a Market street subway, which would put the street cars underground and leave the entire width on the surface for

the lighter and swifter vehicular traffic. Eventually this subway must be built, and I trust that your Board will keep the subject constantly in mind, in order that preliminary plans may be perfected.

As at present constituted, with both appointive and ex officio members, the Traffic Commission, in the opinion of the Commission itself, is too large and unwieldy, and the fact that it has no such authority as that possessed by other Commissions under our City government has been a positive deterrent in the matter of curing our traffic ills.

I strongly recommend to your Honorable Board that, at the next election, you present to the people a Charter Amendment definitely creating a Traffic Commission, for appointment by the Mayor, with a smaller membership, and that this amendment give to the Commission power and authority similar to that possessed by our other major commissions. This, I feel, will do much toward placing our traffic regulations on the highest scientific basis.

In this connection I also recommend to your serious consideration the installation at any early date, if considered feasible, of synchronized traffic control on Market street and other main thoroughfares similar to that in use in New York, Chicago and other cities.

New traffic signs for our street intersections, costing $16,000, have been asked for by the Police Department, which also requests: The subdivision of the present over-large Ingleside Police District and the building of a new station; the erection of a new Bush Street Police Station to replace the present antiquated offices; the turning over of the entire Hall of Justice to Police Department uses, a matter which now is before one of your committees, and the furnishing of additional motorcycle, automobile and motorboat equipment to handle the Department's growing duties.

Streets and Boulevards:

Directly akin to the subject of traffic regulation is that of the repaving of present streets and the construction of new streets and boulevards.

Years ago, when San Francisco's principal streets were constructed, a load of from five to six tons was considered heavy. Today trucks weighing in excess of twenty tons pass over our streets, and the cost of upkeep and repair is consequently much greater. San Francisco has 534 miles of accepted streets and if these are to be maintained at the proper standard sufficient appropriation must be made in each year's budget.

In my message to the Board of Supervisors two years ago I recommended the extension of the Golden Gate Park Panhandle easterly 4600 feet from its present terminus at Baker street to a junction with Market street, near Duboce avenue. The City Engineer has carefully studied this route, made a survey on easy gradients, and the necessary land can be acquired for about $3,000,000. If this property is secured by the City before expensive buildings are erected in this zone a boulevard 200 feet wide can be constructed as a main traffic artery serving both Sunset and Richmond and also as a fire guard to buildings from Market street to the Park.

It is my pleasure to report that more than 90 per cent of the right of way between Ord street and the switchback at Mono street has been acquired for the Market street extension, and that probably within six months this valuable traffic adjunct will have been completed. It will serve Parkside, St. Francis Wood, Ingleside and Monterey boulevard for motor traffic. I respectfully recommend that Corbett road be widened and straightened from the top of the ridge westerly to meet the growing demands made on this thoroughfare.

One of our most important road projects is the Bay Shore boulevard, extending three miles from Army street to the County line, and 125 feet in width. It will serve to "break the bottle neck," providing a great traffic route to meet the highway, now being widened to a similar size, from the County line to San Jose. During the past two years your Board has shown a splendid conception of the importance of this boulevard by devoting $500,000 in Good Roads Funds to the State Highway Commission to initiate and prosecute work on the first five miles south of South San Francisco. This portion is completed, but the rest of the project should be prosecuted with all possible dispatch. Only $100,000 is in the current budget for purchase of rights of way within the City limits, and the necessary amount should be placed in the budget of the coming year to complete property purchases and to make a substantial start on actual construction. Automobile traffic has increased twelve times over in the past ten years, and another outlet down the Peninsula is imperative.

I offer my congratulations to your Honorable Board for carrying through during the past year the first unit of the Van Ness avenue extension across Market to Mission street. Two years ago I recommended that you carry this thoroughfare as far as Howard street as the first construction unit, and I hope you will provide sufficient money to do this.

Two years ago I suggested the building of a Sunset boulevard, 100 feet wide, running diagonally across the Sunset District from the portal of the Duboce tunnel to the Skyline boulevard, and this suggestion I respectfully repeat. Both easy access to the district it crosses and a protection against fire will be provided by such a thoroughfare. The proposed length is 13,350 feet and the estimated cost $1,500,000.

I have heretofore joined with the City Engineer in recommending to your Honorable Board the acquisition of the tier of lots on each side of Capp street, from the Van Ness avenue extension to Bernal Heights, a distance of 8600 feet, as a Mission boulevard. This will provide a highway of a suggested width of 305 feet as another great traffic artery, and, like the proposed Panhandle extension and the Sunset diagonal, will act as a valuable fire guard. I earnestly recommend that no permanent building permits be granted along the route affected.

During the past two years your Board has wisely provided $90,000 to purchase the old Ocean Shore right of way from San Bruno road, past the St. Mary's College tract, beneath the Mission viaduct and down to the County line. In many places it is only 60 feet wide, and by reason of the future importance of this thoroughfare the width should be increased to 100 feet as far south as Onondaga avenue, thence to 80 feet as far as the County line. Purchases of land must be made in the near future, for building in this district is noticeably active.

Our wonderful scenic drives have been augmented by the building of the Telegraph Hill boulevard, 1500 feet long and reaching an elevation of 287 feet. The total cost when completed will be $115,000 and only the pavement remains to finish the project.

A matter for private cooperation is the removal of Rincon Hill, which would provide 73 acres of much-needed industrial sites from Second to Spear streets and from Folsom to Brannan streets. In spite of the efforts of the Chamber of Commerce and the Municipal authorities during the past five years, little real progress has been made. I trust your Board will use due diligence in helping work out a practical solution of this important matter.

I wish also to make note of the fine progress made in the Islais Creek industrial development project, to reclaim 291 acres north of Islais Creek and west of Third street and elsewhere in that vicinity. By act of the State Legislature a Reclamation

Commission for this project has been appointed and the land will be filled in with three million cubic yards of mud pumped from beyond the harbor bulkhead line. I am sure your Board will assist this project in every way.

The work of properly signing our streets, which has a fine start, should be continued to provide proper guides for residents and visitors alike. The present program calls for the expenditure of $10,000 a year, which will completely cover the City in six years.

Bridging the Bay:

The projected bridging of the Golden Gate has been actively discussed during the past year, as has the proposed bridge between San Francisco and Alameda County. The Golden Gate bridge has already received the sanction of the United States Government; the necessary construction district has been formed and soon will be taken the next legal step, the appointment of delegates from each county involved, toward the fruition of the plan. Hearings have been held on the East Bay bridge project and the matter is now in the hands of the Government, which will choose from among the various plans the one considered most feasible.

I am sure your Board will continue your active interest in both these enterprises in recognition of our vital need for better communication, north and east.

Duboce Tunnel:

The Duboce tunnel, which was definitely decided upon last year, is going ahead rapidly in its preliminary stages. Assessments are being paid and the City Engineer promises us a contract by May 1st, next. The tunnel will require some fifteen months to build. It will run from Duboce avenue and Scott street to Carl and Cole streets, and will provide rapid transit between the Sunset District and down town.

Municipal Air Port:

Much further activity has taken place lately regarding the proposed establishment of a Municipal air port. Under the direction of a special committee consisting of members of your Honorable Board and private citizens, in consultation with the City Engineer and the Chamber of Commerce, numerous sites were inspected and recommendation was made of a site in the South Basin District. The estimated cost is in the neighborhood of $1,000,000.

This City is behind several other of the larger cities in the matter of possessing a suitable air port. We must keep abreast of the times, and for this reason there should be continued vigorous action looking to the creation of a landing field which will foster the development of aerial transportation.

Public Buildings:

During the first six months of the present fiscal year building permits in the City and County of San Francisco amounted to approximately $26,000,000, as compared with $25,000,000 for the entire fiscal year 1920-1921, showing an increase of 100 per cent in building operations during the past five years. The City itself has recently built or is now building a number of structures, including new fire stations and the new police station for the Southern District.

Fire Department:

In addition to new engine houses, completed or planned, the Fire Department has in the year just closed installed some 200 new hydrants for the protection of outlying districts and, through the Department of Electricity, has installed fifty additional fire alarm boxes. Fresh water has also replaced the salt water used during the drought of last year in the high-pressure mains. A seven-story building has been erected at Eleventh and Division streets as a drill school for officers and members of the Department.

I respectfully repeat the recommendation I have made to your Board on several other occasions, that steps be taken for the erection of a new building on the site already owned by the City at McAllister and Polk streets, for the combined use of the Fire and Police Departments, since both departments are at present housed in cramped quarters, the Fire Department especially being inadequately cared for in the basement of the City Hall.

City Planning:

The growth of a city is enhanced in every way by the intelligent activities of a City Planning Commission such as San Francisco has had for the past few years.

It was with the principles of city planning in mind that I recently disapproved a number of oil station and public garage permits granted by your Honorable Board, because I felt that these permits were being issued without the future growth of the City being at all times borne in mind. Many garages and oil stations are at present on such main thoroughfares as Market street, Van Ness avenue and Valencia street, and I feel that these should be relegated to side streets, thus improving appearances and at the same time lessening traffic congestion.

I suggest that the new Fire Committee of your Board consult with your City Planning Committee and the City Planning Commission, thereafter consulting with the Mayor, regarding a definite future policy for the issuance of such permits.

It occurs to me, in connection with the subject of garages, that possibly an underground garage, beneath the Civic Center, may some day be built to care for the parking of cars in this neighborhood.

The various improvements I have suggested or recommended to you in this message involve a great deal of money, as I am well aware. It is not my thought that these betterments should be accomplished in a day or a year, but that they be realized as speedily as possible in the years to come. We are looking forward many years, visualizing the San Francisco of the future, and I am outlining what must of necessity be done in the conception of some of this City's greatest minds.

San Francisco's Prosperity:

San Francisco is a City of prosperity, as is evidenced on every hand. Per capita it is the wealthiest city in the United States, and, therefore, in the world. We are constantly building new public works for the benefit of our citizens. Our bank clearings for 1925 totaled nearly nine and one-half billion dollars, an increase over 1924 of $1,113,000. Our automobile registration within the City is 120,000, as compared with 103,471 in 1924, an increase of 16,500. Our population is estimated today at more than 700,000.

It is such things as these which reflect more clearly than anything else a city's progress, and we should be proud that we live in a community which is steadily going ahead.

This growth and this progress must not be checked. We have always borne a reputation for constructive achievement, and this reputation must be maintained.

I shall welcome the opportunity of conferring with you or any of your committees at any time, day or night, for the advancement of San Francisco, and to keep it in the forefront of progressive American cities.

Let us work together, in peace and harmony, for, after all, the welfare of San Francisco lies closest to our hearts, and it is of this City's best interests that we must ever be mindful.

Sincerely,

JAMES ROLPH, JR.,

Mayor of the City and County of San Francisco.

Remarks of New Members.

Supervisor Schmidt thanked those who had elected him a member of the Board of Supervisors and said that the same spirit that animated him as a legislator at Sacramento would dominate and control his work as a Supervisor. At Sacramento he fought to bring the Bay Shore highway into the State system, giving to San Francisco, in his estimation, one of the finest highways to be found in the entire world. He supported the movement for the construction of the Skyline boulevard, and will favor every possible step to bring about the breaking of the bottleneck at Colma. In reference to Islais Creek he said: "It is a movement that will bring beneficial results to the people of this City, in that it will furnish cheap industrial sites to manufacturers." It is also his ambition, he said, to establish a municipal distributing plan for Hetch Hetchy power, and, if possible, to bring about lower taxes.

Supervisor Powers thanked the citizens of San Francisco for electing him a member of the Board of Supervisors and expressed his gratification for the hospitality extended by his many friends, on this the occasion of his induction into the office of Supervisor. He stated that during his coming term he will vote to the best of his ability and with the interest of San Francisco in mind.

Supervisor Havénner expressed to the Board and the citizens of San Francsico his thanks for electing him a member of the Board. To the members of the Board of Supervisors who have just been elected he extended his congratulations and to those who were leaving he offered his best wishes for their success in future activities. He declared that the newly elected members of the Board of Supervisors accepted the mandate of the people to practice economy and he felt that the Board would see that this mandate was fulfilled. At the same time, he said, the Board would hold the people responsible for the moral support and intelligent cooperation which are essential in carrying out this mandate. He said further: "And I charge you now to analyze with the utmost care every alluring proposal that may be made to you during the coming biennium for expensive programs of pubic improvement. It is quite probable that before we have been in office many weeks various attractive projects, involving the issuance of large amounts of bonds or the inclusion of heavy appropriations in the next municipal budget, will be presented to you and to us from sources both official and unofficial. All of these projects will have undeniable merit. But you must remember that it will be obviously impossible for you to give such projects your support at this time, or for us to put them into effect, without abandoning all hope of a reduction of taxation in the immediate future. And I ask you to remember further that the paramount issue in the recent campaign was the municipal distribution of power. You voted overwhelmingly in favor of it, and by your vote commanded us to give the completion of the power project precedence over all other new municipal undertakings which would involve major expenditures or assumptions of indebtedness.

"I prophesy now, if you will inquire into the origin of these alluring proposals which I have predicted, that you will find that most of them emanate from agencies or interests, whether official or unofficial, which are not in sympathy with your program of economy or your mandate for municipal distribution of power, but which are primarily inspired by a political desire to embarrass those who are representing you and attempting to carry out your recently expressed wishes."

Supervisor Kent said in part: Having been appointed on one of the most important committees, that of finance, I want to assure you that at all times we will weigh most carefully all matters submitted to that committee. I stand unequivocally upon the platform just announced by Supervisor Havenner. He thanked the people and the Board for their confidence in him and assured them all that at no time would they regret it.

Supervisor Stanton thanked the people of San Francisco for electing him as a member of the Board, and stated that he would carry out to the best of his ability the promises he made to them before election. He pointed out the necessity of bringing Hetch Hetchy power to San Francisco at the earliest possible date and said that at all times he would vote to give an economical and efficient administration of civic affairs.

Supervisor Todd thanked the people of San Francisco for the confidence placed in him by electing him a member of the Board of Supervisors and stated that he would do all in his power to make a success of the committee given him, viz.: Traffic Committee, together with

other committees he is serving on.

Supervisor Gallagher expressed to the Mayor his thanks that he was selected as the one who might take Supervisor Katz's place upon the Board. There is no question, he said, about the tremendous problems San Francisco faces, big problems, involving tremendous expense. He declared that Supervisor Havenner's program was constructive in its nature but somewhat retrieving. He believed it is possible to keep the tax rate down to a reasonable and respectable minimum, but not to the point where it would stop the progress of San Francisco. He thanked the old Board for the courteous way in which they always received him in the past, and expressed his gratitude for the way all matters he brought before the members were looked into. He also expressed his appreciation for the work and untiring efforts of the outgoing members of the Board.

Supervisor McSheehy thanked his fellow citizens for the confidence and trust they placed in him in reelecting him to the office of Supervisor, a confidence which he deeply appreciated, and stated that he will, to the best of his ability, fulfill the hope of the people in giving to them the same service that he has given during the last four years. We are living, he said, in the greatest city in the world. There is no city in the world today that has the prosperity of this great City of St. Francis. We want that prosperity to continue. We want to say a year from now that the bank clearances are 50 per cent or 100 per cent higher than they are today, and that the building permits are 50 per cent or 100 per cent higher than they are today. Your prosperity means our prosperity and our prosperity means your prosperity. Therefore, he said, be tolerant with us. You have, by your mandate, laid certain obligations upon us, and we will endeavor to fulfill those obligations to the best of our ability.

Supervisor Roncovieri extended a heartfelt greeting to the incoming members of the Board of Supervisors and bid Godspeed to those who retired. He also, as a member of the Board, rededicated himself to work constructively, conscientiously and wholeheartedly to the solution of every problem that is and will be theirs to solve, to the end that San Francisco may grow and prosper as the "city loved around the world."

Supervisor Shannon: To the outgoing members he wished Godspeed and a prosperous new year. "They have but traveled the road of politics—defeat in the end." He gave the incoming members a hearty greeting and said that he realized with Mr. Gallagher that there would be many differences on various matters, but their differences would be honest differences, all of them taking the stand that they believed would be for the betterment of San Francisco, the Queen City of the Pacific, which is bound to be a world metropolis. He believed that their every action would be for the upbuilding and the progress and betterment and beautification of San Francisco.

ROLL CALL FOR PETITIONS FROM MEMBERS.

Opinion of City Attorney on Mayor's Veto of Garage Permits.

The following was read by the Clerk:

January 11, 1926.

Dear Sirs:

I am in receipt of your letter of January 8 requesting as to whether or not the Mayor's veto on several permits granted by the Board of Supervisors may be carried along by the Board until such time as Supervisor Deasy, who is at present ill in the hospital, can attend the meeting of the Board and present his arguments regarding automobile and supply station and garage permits vetoed by the Mayor.

I direct your attention to Section 16, Article II, Chapter I of the Charter, in which section it is provided:

"The objections of the Mayor shall be entered at large in the Journal of the Board, and the Board shall, after five and within thirty days after such bill or resolution shall have been so returned, reconsider and *vote* upon the same."

I am of the opinion that this provision of the Charter is mandatory, and that it is incumbent upon the Board of Supervisors to vote upon the veto of the Mayor within the thirty days prescribed.

In view of this fact, I am further of the opinion that notwithstanding the fact that the Mayor is willing to permit the vetoes to ride until Supervisor Deasy may return, that neither the Mayor nor the Board has the power to consent to the continuance.

Respectfully yours,

JNO. J. O'TOOLE,
City Attorney.

Leave of Absence, Dr. Hassler.

The following was presented and read by the Clerk:

San Francisco, Cal.,
January 12, 1926.

Will you please concur with me in granting this leave of absence?

Respectfully yours,

JAMES ROLPH, JR.,
Mayor.

January 9th, 1926.

Gentlemen:

In accordance with the provisions of Section 3 of Article XVI of the Charter of the City and County of San Francisco, I herewith respectfully request permission to absent myself from the City and County of San Francisco and the United States for a period of four months from February 1, 1926, for the purpose of attending as the representative of

the United States of America and the City and County of San Francisco to the Conference on Municipal Sanitation and Public Health as interchange delegate of the Health Organization of the League of Nations, to be held in Great Britain commencing February 22, 1926.

In conformity with the Charter provisions I have this day forwarded a similar communication to his Honor James Rolph, Jr., Mayor City and County of San Francisco.

WM. C. HASSLER,
Health Officer.

Privilege of the Foor.

Geo. Gerhardt, representing the Civic League of Improvement Clubs, was granted the privilege of the floor and addressed the Board, urging that the proposed leave of absence be granted. He presented the following resolution, which was read to the Board:

Whereas, Dr. William C. Hassler, Health Officer of the City and County of San Francisco, has been selected by Dr. Hugh S. Cummings, Surgeon-General of the United States Public Health Service, at Washington, D. C., as a delegate to the International Health Conference to be held in London from February 22nd to April 3rd, 1926, which conference will be attended by apointees from fourteen nations, and to which Dr. Hassler will be the only delegate from the United States of America; and

Whereas, one of the main purposes of this notable gathering is to discuss and consider sanitation and public health in connection with the administration of cities, and to make recommendations regarding the proper care of children as part of the social service in which modern cities should engage for the protection of their people; and

Whereas, the designation of the Health Officer of San Francisco as the only delegate to this historical conference is not only a wonderful tribute to him personally by the recognition of his work as a public officer of this city for the past twenty years, but is also national recognition of the fact that San Francisco stands foremost not only among the great cities of the United States but also among the great cities of the world as a place of residence where the health of the people, and especially of the children, is protected and maintained by highly intelligent administration of the laws guided by the application of all the knowledge and experience known to medicine and social service development; and

Whereas, this notable recognition of the work of our Department of Public Health by the Surgeon-General of the United States Public Health Service in thus conferring such a high honor and distinction upon our Health Officer calls for universal commendation from the public-spirited citizens of San Francisco, which feels deeply greatful for his selection; now, therefore, be it

Resolved, By the Executive Board of the Civic League of Improvement Clubs and Associations of San Francisco, that his Honor the Mayor and the Honorable Board of Supervisors recognize the great value of this distinction to our city by granting to Dr. William C. Hassler an appropriate leave of absence, permitting him to leave the State of California for the period necessary to enable him to attend the aforesaid International Health Conference in London, as the sole representative of the United States of America, carrying with him the best wishes of the State of California and especially the City and County of San Francisco.

Whereupon, the following resolution was presented and *adopted*:

Resolution No. 25050 (New Series), as follows:

Special Highway Committee Report.

Supervisor Harrelson, chairman of the Special Highway Committee, made a report on the highway condition southerly from Colma. In April, 1925, a committee was appointed to study the situation, consisting of Supervisor Harrelson chairman; Mr. E. B. Leavitt, representing the Southern Pacific Company; Mr. A. L. Black, representing the Market Street Railway Company; Mr. John Skaggs and City Engineer M. M. O'Shaughnessy. Numerous meetings have been held and estimates made of the cost of the work to be done.

The tracks of the Market Street Railway are to be moved and the roadway is to be widened to 80 feet It is estimated that $250,000 worth of the work shall be paid for by the State Highway Commission. The Market Street Railway will contribute $110,000 as its portion of the cost and will perform all the construction work at cost, thus making a saving of twenty-five to thirty thousand dollars.

The Supervisors of San Mateo County will contribute $50,000 and make any changes in the franchises of the Market Street Railway necessary for the change in the location of the tracks of the Market Street Railway Company and to widen the highway to 80 feet. This leaves $150,000 to be raised.

Supervisor Harrelson moved that the Board appropriate this amount out of the Good Roads Fund as San Francisco's portion of the cost of this much needed improvement.

Supervisor Welch moved to amend and refer the recommendation to a joint committee of Streets and Commercial Development and Finance, which amendment was carried.

ROLL CALL FOR PETITIONS FROM MEMBERS.

Report of Finance Committee.

The following was presented by Supervisor McSheehy and *read* by the Clerk:

San Francisco, Jan. 15, 1926.

Your Finance Committee this day has received from the city Attorney the legal opinion submitted herewith.

In substance, this opinion determines that the members of the previous Finance Committee acted without proper legal basis in appropriating $1,400,000 of Hetch Hetchy power revenues for purposes, in no way connected with the Hetch Hetchy project, in the Budget for 1925-26. The Attorney rules that the revenues from Hetch Hetchy may be applied to the Hetch Hetchy project alone.

For the mistake that has been made the present Board is in no way responsible. The responsibility is ours, however, to eliminate $1,400,000 of Budget expenditures for the remaining five months of this fiscal year. The Auditor rightly states that he will decline to honor any and all expenditures which might be made within the $1,400,000 deficit.

Your Finance Committee, after a complete examination of the City's financial condition made on the basis of a full accounting compiled by the Auditor, hereby presents a list of items which the Board, in its discretion, may safely revise. In most instances, the list calls for economies which are desirable in any case. The said list totals $2,141,100, or $700,000 more than the compulsory deficit. Accordingly, should the Board desire to retain $700,000 of the suggested list, the City can still operate without a deficit until July first, though some protection against unforeseen emergencies and some surplus in the General Fund for next year would be desirable.

The items here suggested for elimination at the Board's discretion fall within three classes:

1. Special appropriations passed prior to January 4, 1926, which may be rescinded. Total, $906,700.

2. Reductions in appropriations made to several of the departments of the city government. Some departments have received larger sums than ever before, and during the past six months of the fiscal year have amassed considerable surpluses over actual total expenses, indicating similar surpluses for the second six-month period. Portions of such surpluses may be applied, at the Board's discretion, to meeting this emergency. The suggested total is $159,400.

3. For five months remaining of the fiscal year we are compelled to defer full payment upon certain desirable projects. It may be found necessary to reserve some part of the $400,000 Civic Center War Memorial appropriation, and it is probable that the $675,000 Special School Tax money will not be needed before the next Budget is prepared. These monies are not yet spent, and so far as the school program is affected the department might speed up the use of bond monies. Your Finance Committee wishes to make it clear that these projects, if postponed temporarily, are obligations to be included in the next Budget, with funds available on July 1, 1926. In the matter of the War Memorial and the School Department, as matters stand, there would be no serious obstruction or delay to these projects. Plans and other preparations can go ahead uninterruptedly and construction follow after July 1. Whatever action is taken by this Board is made necessary by the legal error of the past Finance Committee.

The foregoing is reported for information of the Board. The Finance Committee with the cooperation of the members must defer appropriations, where possible, to absorb the $1,400,000, General Fund deficit. By reserving certain appropriations, where delay will not affect public interest, the deficit can be made up and the revenues from the power product can be used as provided by the Charter.

Opinion of City Attorney.

The following was read by the Clerk:

January 15, 1926.

Subject: Transfer of Hetch Hetchy Power Funds.

Dear Sir:

I am in receipt of your request for an opinion regarding right of the Board of Supervisors to transfer funds derived from the sale of power from Hetch Hetchy hydroelectric plant, in which you state:

"Recently my attention has been called to the question of the legality of appropriating the revenue derived from the sale of Hetch Hetchy power to the General Fund, and I would be pleased if you will advise me whether, in your opinion, the Board of Supervisors had the authority or the power to transfer, by resolution or otherwise, the estimated $1,400,000 revenue from the sale of power to the General Fund."

Opinion.

I direct your attention to paragraph 1 of Section 16 of Article XII of the Charter, which is as follows:

"Whenever any public utility shall be operated by the City and County, the receipts from such utility shall be paid daily into the City Treasury and maintained in a special fund set aside for such utility. The Supervisors may, from time to time, make appropriations from such funds for the following purposes:

(a) For the payment of the operating expenses of such utility;

(b) For repairs and reconstruction;

(c) For payment of interest and

sinking fund on the bonds issued for the acquisition or construction of such utility;

(d) For extensions and improvements;

(e) For a reserve fund.

The provisions above quoted are the charter provisions applicable to the disposition of receipts from a public utility, and appear to be mandatory. I am of the opinion that the Board of Supervisors can appropriate the funds derived from the sale of power to the Pacific Gas and Electric Company only as provided in the section quoted.

Paragraph 2 of the same section provides for the disposition of money in the Reserve Fund—the paragraph is as follows:

"Whenever the reserve fund shall exceed one-half of the payment for operating expenses in the preceding fiscal year, the Supervisors *shall have the power* to apportion such excess to the general fund."

As the Reserve Fund can only be established after all of the other items of expense mentioned in Subdivisions (a), (b), (c) and (d), have been provided for, and funds from this Reserve Fund can be transferred to the General Fund only when the former fund shall exceed one-half the payment for operating expenses of the utility for the preceding fiscal year, you are advised that at this time the Board of Supervisors cannot transfer the amount of the estimated revenue from the sale of the power from the utility mentioned.

Respectfully,
JNO. J. O'TOOLE,
City Attorney.

Communication From Former Supervisor McLeran.

The following was presented and read by the Clerk:

January 16, 1926.

Honorable Mayor James Rolph, Jr.,
Honorable Board of Supervisors
of the City and County of San
Francisco, City Hall,
San Francisco, California.

Gentlemen: According to articles published in the daily press, statements have been made that the previous Finance Committee of the Board of Supervisors made a legal error in preparing the Budget for the fiscal year of 1925 and 1926. Also that certain activities provided for in the Budget must be curtailed in order to meet the anticipated deficit.

In justice to myself and the previous members of the Finance Committee, I must take exception to the published statements and deny that any error has been made in making up our Budget appropriations.

It is not necessary at all to curtail the activities of any department; there is sufficient money in the treasury that can be made available to meet all expenditures during the present fiscal year. It is only a question of bookkeeping and the same course can be pursued now as has been in previous years, by proper resolutions and transferring funds to meet requirements.

Every year beginning the first of July until taxes are paid in November, there is no money whatsoever available to meet current expenses, and it has only been done by borrowing from one fund temporarily—has the city been able to pay its bills during the five months between July and December.

The whole controversy over the shortage is a tempest in a teapot, and should not in any way cause the Board of Supervisors any alarm. It was premature on the part of the Auditor to raise the question that did not exist and cannot exist until the Board of Supervisors, by resolution or ordinance, definitely determine how the money received for the sale of power is to be disbursed, and that has not been done up until the present time.

We always intended the power money to be used for payment of interest on the cost of the power division of Hetch Hetchy and did provide in the general fund to take care of interest on eight million dollars, but did also set up the full amount of interest on the whole project in the tax rate.

You will find when you pass an ordinance setting up the fund there will be enough money to carry over for next year's interest on eight million dollars and also sufficient money to provide for all activities in the Budget.

Yours very truly,
RALPH McLERAN

January 18, 1926—Read, when Finance Committee's report was presented to Board.

Rereferred.

The foregoing report and communication was thereupon *rereferred to the Finance Committee for a more definite itemization of the deficit.*

Supervisor Gallagher, in connection with the foregoing, asked that the opinion of the City Attorney be obtained as to whether or not the budget can be amended by ordinance and corrected.

Relief to Be Given to Police Quarters.

The committee of three, appointed by Mayor Rolph, consisting of Su-

pervisors Shannon, Bath and Deasy, to investigate the requests made to the Board by the Grand Jury, the Police Department and other departments occupying the Hall of Justice for provision to be made to provide more room for them, has completed its investigation and made its report.

The committee, in its report, stated that conditions are deplorable and that by all means office room should be provided elsewhere for the departments now occupying the fourth floor of the building and thus leave that much additional room for the Police Department.

Whereupon, the following resolution was presented by Supervisor Powers and *adopted*:

Resolution No. 25055 (New Series), as follows:

Resolved, That the Clerk of this Board be directed to advertise in the official newspaper to solicit offers for office space for the District Attorney's office, the Adult Probation Board and the Public Defender's office, in accordance with the recommendation of the special committee appointed by the Mayor.

Ayes — Supervisors Badaracco, Bath, Gallagher, Harrelson, Havenner, Hayden, Kent, Marks, McSheehy, Powers, Roncovieri, Schmidt, Shannon, Stanton, Todd, Welch—16.

Hetch Hetchy Inspection.

Supervisor Shannon, chairman of the Public Utilities Committee, announced that his committee would make an inspection trip to Hetch Hetchy, leaving at four o'clock on Wednesday of this week and returning on Saturday, and invited the other members of the Board to accompany them. Supervisors Badaracco, Bath, Hayden, Roncovieri and Stanton accepted the invitation. Several of the members were undecided as to whether they would be able to go or not.

Mayor's Veto, G. B. Mon Permit.

Consideration of Mayor's veto of G. B. Mon permit for French laundry, California street between Divisadero and Broderick streets (Resolution No. 24923).

Privilege of the Floor.

Mrs. Rohlffs, property owner, was granted the privilege of the floor in opposition to the permit.

Supervisor Gallagher explained his vote by saying that he intended to vote to sustain the Mayor's veto, but without prejudice to the applicant again making application when he could more thoroughly go into the matter which time forbids now.

Mayor's Veto Sustained.

The question being put: "Shall the resolution pass notwithstanding the objections of his Honor the Mayor." The roll was called and the resolution *refused passage* by the following vote:

Ayes — Supervisors Badaracco, Harrelson, Havenner, Kent, Marks, McSheehy, Powers, Roncovieri, Schmidt, Shannon, Stanton, Todd, Welch—13.

Action Deferred.

The following matters were on motion of Supervisor McSheehy *laid over until February* 14, 1926:

Resolution No. ——— (New Series), as follows:

Whereas, a report has been filed by the architects for the Civic Center, comprising John Galen Howard,

Frederick H. Meyer and John Reid, Jr., which report is as follows:

To the Building Committee, Board of Supervisors, City and County of San Francisco, California.

Gentlemen:

To supplement previous reports that have been submitted to you during the year, especially that of last May, the following recommendations are presented regarding the future development and safeguarding of the Civic Center area:

First: It is recommended that Leavenworth street be carried through to Market street and that the necessary lands be purchased therefor in order to complete the street system of the Civic Center.

Second: That the architectural character of the structure to be built by the City on its twenty-foot strip of ground on the south side of Fulton street from Market to Hyde be definitely fixed and that the City adopt a policy of purchasing the gore corner of Market and Fulton streets to assure the architectural character of the entrance to the Civic Center.

Further, that the preparation of the detailed design be authorized in order that the adjoining property owners may be advised as to the architectural conditions to be met. This is particularly necessary in view of the proposal of the owner of the Pantages Theater property to finish his Hyde street frontage in accordance with the architectural treatment of the Fulton street building above referred to.

Third: That all of the remaining Civic Center sites be retained for municipal purposes exclusively.

Fourth: That provision be made for the completion of the paving of the Civic Center Plaza.

Fifth: That the architectural character of the proposed War Memorial, in view of its relation to the Civic Center, be subject to the approval of the City and County of San Francisco, through its authorized advisers.

Sixth: That in order to preserve a continuity of the original Civic Center scheme that this and all questions pertaining to the design, development and embellishment of the Civic Center be referred to an advisory committee consisting of those who have already taken part in its design and execution. This committee would consist of the three consulting architects of the scheme, the architects of the City Hall, the architects of the State Building and the architect of the Library Building.

From practical experience in the working out of the several elements connected with the Civic Center it has been found that its future dignity and uniformity of design can only be protected by a most careful supervision.

Very truly yours,

JOHN GALEN HOWARD,
FREDERICK H. MEYER,
JOHN REID, JR.,
Architects of the Civic Center.
By JOHN REID, JR.,

Therefore, be it Resolved, That the said report as herein set forth be and the same is hereby approved and adopted.

For each fiscal year commencing with July 1, 1926, and July 1 of each year thereafter, there is hereby similarly appropriated from said Operative Fund: First, the sum of $200,000 for the purposes specified in the First Subdivision of Section 2 hereof; second, the sum of $175,000 for the purposes specified in the Second Subdivision, Section 2 hereof; and third, after deducting said sums, sufficient for the rest and remainder of said moneys accruing to said fund during each of said fiscal years to pay the annual interest on and to provide for the redemption of the said $9,000,000 of bonds of the 1910 issue hereby allocated to the construction of the portions of the Hetch Hetchy project which is used for the generation and transmission of hydro-electric power; provided, further, that if and whenever the moneys deposited in said fund shall become more than sufficient to meet the operation, maintenance, depreciation, interest, and redemption charges above specified, in either the fiscal year 1925-1926, or in any subsequent fiscal year, then in such event the Board of Supervisors may make further appropriations from said fund for the additional purposes specified in Section 16 in Article XII of the Charter.

Section 4. All expenditures for operation, maintenance and depreciation charges as above defined shall be paid out of the respective appropriations therefor by the Treasurer, upon demands duly approved by the Board of Public Works and the Auditor.

Section 5. At the beginning of the fiscal year, July 1, 1926, the balance remaining in said Hetch Hetchy Power Operative Fund and not appropriated for specific additions or betterments, shall be held for and applied exclusively toward the acquisition or construction of a transmission line for carrying electric energy generated at the Moc-

Privilege of the Floor.

E. P. E. Troy was granted the privilege of the floor on motion of Supervisor Shannon and discussed the Hetch Hetchy power project, criticizing the length of time taken by the City Attorney's office and the Railroad Commission in evaluating the distribution systems of the Pacific Gas and Electric Company and the Great Western Power Company, and urging that the City proceed at once to construct its own line and stepdown station. He also alleged that the line loss allowed the Pacific Gas and Electric Company in the power contract was excessive as compared with Pasadena and other parts of California.

Report of Public Welfare Committee on Discontinuance of the Municipal Record.

The following was presented and read by the Clerk:

Your Committee on Public Welfare, charged under the rules of this Board with the publication of the "Municipal Record," herewith presents the following statement, setting forth the history of this publication, its present status, and the conclusions of the committee in respect thereto:

History—This publication was started in 1908, primarily for the purpose of giving information to the public in regard to the expenditure of $17,000,000, the amount of bonds issued for a large number of public improvements; also to keep the public informed of the details of and progress made in acquiring the rights in Hetch Hetchy.

Subscription was free and in a short time reached a volume of 15,000 and cost the City approximately $15,000 a year.

In 1915 this was deemed to be an extravagance and to curtail the expenditure a subscription price of fifty cents a year was charged.

Immediately the subscription list dropped to less than 1000, at about which it has since remained.

The last report showed a mailing list of 1042, of which probably 100 are "free". The actual paid subscription is less than 1000, which brings in about $500 a year.

Present Status—At present and as now conducted, the "Record" serves no particular purpose and gives official information to a meager number of persons.

This condition was brought to the attention of the Public Welfare Committee last June and the suggestion was made that by the issuance of a special number of the "Record" once a month, attractively printed, and devoted to some special line of municipal activity, that public interest would be stimulated and the subscription list increased to measurable proportions.

The suggestion was favorably acted upon, and since July six very attractive special numbers of the "Record" have been printed and 5000 copies issued. The last report shows that 1042 copies were mailed and the bulk of the remainder distributed through the Library and Police Departments.

The scheme has brought but few new subscribers and from the point of enlarging the circulation has been a failure.

The cost of issuing one special number is approximately $700 and the cost per month is about $1,000. Reduced to a subscription basis the City pays out $1 and receives four cents in return.

The appropriation in the budget from which the cost of printing is paid has been largely overdrawn and now shows a deficit of more than $6,000.

The regular weekly issue of the "Record" is 2000.

In view of the above-recited facts and the pressing necessity for a curtailment of the City's expenses, your committee has reached the conclusion that the "Municipal Record" should be discontinued and a resolution to that effect is herewith presented and recommended for adoption.

Every taxicab, automobile and sightseeing bus shall have permanently affixed to the interior thereof, in a place readily to be seen by passengers, a frame covered with glass, enclosing a card not less than six (6) inches square, upon which shall be printed in plain, legible letters the schedule of rates prescribed in this ordinance, applicable to every such vehicle.

(a) The said frame and enclosed card must be approved by the Chief of Police.

Sec. 35. In case any vehicle described in this ordinance shall, while conveying for hire or reward any passenger or passengers, become disabled, or shall break down, the time of stoppage shall be deducted from the time charged for.

Sec. 36. It shall be unlawful for any person to be in any boat at night on the waters of the bay, with intent to use or to use such boat for the conveyance of persons from place to place, for hire, without having in said boat a lighted lantern at least six inches square, with the number of said boat painted thereon in plain Arabic figures of such size and form as to be readily seen and read, and which, upon the demand of any person, shall be exhibited.

Sec. 37. It shall be unlawful for

any runner, soliciting agent, or driver, or motorman, of any public vehicle for hire, or of any job wagon, to misrepresent in any manner whatsoever the character of the business engaged in, or being solicited for, or to personate or attempt to impersonate any other runner, soliciting agent, driver or motorman of any public vehicle for hire, or of any job wagon, in the conveyance or transportation of persons, baggage or merchandise, or any other person, or to convey or transport persons, baggage or merchandise to any place or destination other than the place or destination engaged for.

(a) No person having charge of or soliciting patronage for any vehicle or boat shall, for the purpose of securing patronage, make any false representations concerning the ownership or employment of such vehicle or boat.

Sec. 38. Every person, firm or corporation owning or using any boat upon which a license tax is imposed by any order or ordinance shall have attached to said boat a pair of metallic plates to be furnished by the Tax Collector on payment of the license tax. Each of said pair of plates shall bear a different number and specify the year for which issued. Said plates shall be attached in the manner and place designated by order or ordinance for the attachment of boat number plates, or, if not so designated, in a position to be designated by the Tax Collector. When so attached, neither of said plates shall be removed from said boat without the authorization of the owner.

Sec. 39. The number designated for any boat shall be placed thereon in two places, either by tacking thereupon the tins furnished by the Collector of Licenses, or by painting such number upon the boat, in plain Arabic figures not less than one and one-half inches in height, and of proportionate width, and of such color as to be readily seen and distinguished.

(a) The number of each boat shall be placed on both sides thereof within two feet of the bow, on the outside of each boat, immediately below the gunwale.

Sec. 40. No person shall use or drive, or permit to be used or driven, any boat belonging to him, or under his control, which, by any of the provisions of this ordinance, is required to be numbered, without having the appropriate number thereof, and no other, placed thereupon in the manner and place provided in Section 41 of this ordinance, nor with such number inverted, covered, mutilated, obliterated, or obscurely painted, or illegible.

Sec. 41. Any person driving or having control of any vehicle on which a number is required to be placed shall give the number of his vehicle on the inquiry of any person.

Sec. 42. Bay Shore Boulevard, Primary System of State Highways.

Supervisor Welch presented:

Resolution No. 25117 (New Series), as follows:

Whereas, there is but one highway connecting San Francisco with the great highway system of the State of California; and

Whereas, with the increasing number of automobiles and the tremendous growth of traffic the congestion upon this single highway presents an intolerable condition; and

Whereas, the completion of the Bay Shore Highway from San Francisco to San Jose at the earliest possible date is of vital importance, not alone to San Francisco and the counties traversed by this road, but to the whole of Northern California, which will be served by thus being given easier access to San Francisco over this important link of the State Highway System. Now, therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco hereby records itself upon the proposition that any scheme of financing construction of State highways must, in fairness to San Francisco and Northern California, include the Bay Shore Highway in the primary system of State

highways and that this Board will oppose any plan or proposal that would leave the Bay Shore Highway out of the primary classification.

Supervisor Welch presented:

Resolution No. 25118 (New Se-Series), as follows:

Whereas, the commerce of the port of San Francisco has been rapidly increasing and its further increase may be safely predicted; and

Whereas, the facilities for the handling of the maritime traffic have reached their maximum to the northward of Islais Creek and the future improvements must be made at this point and southerly therefrom; and

Whereas, the presence of a shoal at the east of the mouth of Islais Creek renders such improvement impossible of accomplishment and constitutes a menace to navigation; therefore,

Resolved, That the governmental authorities be urgently requested to take steps to remove the shoal and deepen the channel of the Bay of San Francisco east of Islais Creek, and that the City Engineer be requested to prepare and submit to the proper Board of United States Engineers a report and all necessary data showing the importance of this work and its necessity for the immediate and future development of commerce and maritime interests of San Francisco and the Pacific Coast.

Death of Congressman John E. Raker.

The following tribute to the character and worth of Congressman John E. Raker was, on motion of Supervisor Welch, *ordered spread* in the Journal:

The Board of Supervisors of the City and County learns with profound regret of the death of Honorable John E. Raker, member of Congress from the First Congressional District of this State.

It is fitting that we should recognize and inscribe upon the pages of our records, the eminent character of the services which he has rendered in behalf of the people of this City, while at the same time he served the people of the nation with a fidelity and display of ability worthy of the highest praise.

San Francisco owes much to his wise counsel and indefatigable efforts in passing through Congress the act which bears his name—the act that granted to the City the rights to impound in Hetch Hetchy valley the waters that in future years will be essential to sustain the life of its inhabitants and make it possible to achieve a greatness that otherwise would have been impossible.

So, through this Board, the City records its sorrow over the passing of its friend and offers its sincere condolences to the members of his family who have just cause to mourn his loss.

ADJOURNMENT.

Whereupon, the Board by a rising vote, at the hour of 5:50 p. m., adjourned out of respect to the memory of Congressman Raker.

County Supervisors Association Convention.

Taft, California,
January 23, 1926.

To All Supervisors of California Counties:

Please be advised that the Sixteenth Annual Convention of the County Supervisors Association of California will be held in San Diego on March 10, 11, 12 and 13, 1926.

The importance of the Supervisors attending the sessions of the State Association has been recog-

nized by the Legislature passing a law which makes the necessary traveling expenses incurred in attendance upon the convention a legal charge against the county.

Supervisors who anticipate leaving the state should have permission from their Boards, as their office can be declared vacant if they leave the state without permission.

The convention will undoubtedly be one of the most important ever held, as methods of financing future state highway construction will be discussed, as well as other matters of vital importance to the state and its counties. Please make your arrangements now to attend this important meeting.

Yours very truly,

J. K. Macomber, President,
Stanley Abel, Secretary,
County Supervisors Association of the State of California.

Sixteenth Annual Convention of County Supervisors Association Committee.

The following was presented and read by the Clerk:

"Hon. Warren Shannon, Board of Supervisors, City Hall, San Francisco.

Dear Supervisor Shannon:

In compliance with your motion requesting the Mayor to appoint a committee of five Supervisors to attend the Sixteenth Annual Convention of the County Supervisors Association of California, at San Diego, March 10th-13th, the Mayor has named you as chairman of the committee, the other members appointed being Supervisors Powers, Hayden, Welch and Bath.

The Mayor hopes that you will find it possible to attend this important convention."

Very sincerely,
(Signed) EDWARD RAINEY,
Executive Secretary to the Mayor.

Communications Relative to Hetch Hetchy Power Capitalization.

The following was presented and read by the Clerk:

San Francisco Chamber of Commerce, 465 California street,
San Francsico.
January 28, 1926.

Honorable Board of Supervisors, City and County of San Francisco, City Hall, San Francisco, California.

Gentlemen:

We are advised that there is pending before your Honorable Board an ordinance, recommended by your Public Utilities Committee, creating a special Hetch Hetchy power operative fund and charging $9,000,000 of the $45,000,000 Hetch Hetchy Water Bond Issue of 1910 to power development.

The Chamber of Commerece respectfully calls to your attention the following facts, which, in its opinion, indicate that the capital charge of $9,000,000 to power development is far below the amount that should be charged against this project.

The actual cost of the works used exclusively for power purposes and development which may ultimately be used also for water, but which need not have been constructed until a later date, except for use in the production of power is in excess of the $9,000,000 proposed as a capital charge against power construction.

In addition to the cost of construction used exclusively for power the Raker Act requires that for rate fixing purposes the costs shall include "a fair proportion of the cost of conduits, lands, dams and water supply system". This establishes a legal basis on which the minimum capitalization for power purposes must ultimately be fixed.

A capitalization of $9,000,000 would make available for bond interest and redemption charges on Hetch Hetchy bonds only $605,000 for the next fiscal year as compared with $1,355,000 for such purpose under the $21,000,000 capitalization originally proposed. Under the $9,000,000 capitalization the difference of $750,000 would necessarily have to be raised by taxation.

From an economic standpoint, and possibly in accordance with Charter requirements, all of the Hetch Hetchy power revenues not absorbed by operating costs, maintenance, repairs, insurance and depreciation should be applied against the total debt charges, which amount to $2,755,000 for the present year on all outstanding Hetch Hetchy bonds, in order that the taxpayers might be relieved of as much as possible of this heavy burden.

The building to full size of Hetch Hetchy tunnels which will ultimately be used jointly for water and power purposes operates only to the immediate advantage of power production. Smaller and less costly tunnels sufficient for the water requirements of the project for many years would have lowered the capital charge for water construction to a considerable extent. On this basis power revenue should equitably absorb a relatively large portion of the capital cost of construction ultimately to be used jointly for both water and power.

The Chamber of Commerce wishes to take this opportunity of commending the recent decision of the committee of Supervisors following an inspection trip over the Hetch Hetchy project. This, as reported, is to recommend the speeding up of the construction work under the 1924 $10,000,000 Hetch Hetchy Water Bond Issue. The recent discussions of low water storage and subnormal rainfall thus far this year indicate that a water crisis is again impending and emphasize forcibly the urgent necessity of providing funds for and completing the Hetch Hetchy water system at the earliest possible date.

Very truly yours,

San Francisco Chamber of Commerce.

(Sgd.) Clay Miller, President.

Down Town Association,
San Francisco.

February 1, 1926.

Honorable Board of Supervisors, City and County of San Francisco, San Francisco, California.

Gentlemen:

The Down Town Association begs leave to express its attitude as to the proposal now before your Honorable Board to set up a figure of $9,000,000 as the cost of Hetch Hetchy power development.

We respectfully submit that the valuation of $9,000,000 for the power element of the Hetch Hetchy system is too low a figure according to the best information that is at this time available. The City Engineer has heretofore fixed a figure of $18,000,000 as the valuation of this element and later of $21,000,000 as the proper capitalization of the power development.

To fix too low a valuation upon the power element at this time without a thorough analysis and the most expert appraisement obtainable would be an invitation to possible disastrous consequences in the future. This is for the reason that the rates to be charged to irrigation districts the municipalities for the power under the strict requirements of the Raker Act, must be based upon the valuation that will be fixed by San Francisco upon the power element of the Hetch Hetchy system. Too low a valuation will mean that we will have to sell power to irrigation districts and municipalities below the fair cost of producing that power. That condition must continue indefinitely into the future, because it will be almost impossible later to change to a higher and fairer valuation after the City, by the deliberate act of its Board of Supervisors, supposedly upon adequate information and expert opinion, at this time adopts a figure of $9,000,000. Lower rates to irrigation districts and other municipalities mean an unfair tax burden on San Francisco.

We, therefore, respectfully urge upon your Honorable Board that you fix no valuation at this time but defer your action until there shall be available complete information upon which you may act without danger to the future interest of San Francisco.

Yours respectfully,

Down Town Association,
By (Sgd.) Jos. M. Cumming,
Executive Secretary.

The San Francisco Real Estate Board, 156 Montgomery Street,
San Francisco.

February 1, 1926.

To the Honorable Board of Supervisors of the City and County of San Francisco, City Hall, San Francisco, California.

Gentlemen:

It has come to our attention that there is pending before your Honorable Board an ordinance which proposes to create a special Hetch Hetchy Power Operative Fund and which charges $9,000,000 of the $45,000,000 Water Bond Issue of 1910 to power development.

We would respectfully call your attention to the very great discrepancy between the sum of $9,000,000, which it is proposed to charge against power development, and the estimate of the City Engineer amounting to $21,000,000. A capitalization of $9,000,000 would make available for bond interest and redemption charges on Hetch Hetchy bonds in the sum of only $605,000 for the next fiscal year, as compared with $1,355,000 for such purposes under the $21,000,000 capitalization originally proposed by the City Engineer. Under the $9,000,000 capitalization the difference of $750,000 would necessarily come from taxation.

Representing the largest body of taxpayers, we respectfully urge upon you that, in view of the greatly increased tax rate of the present year, resulting in the consequent tremendous burden to be borne by the taxpayers, it is highly important that your honorable body use every effort to lighten the tax burden by applying the maximum amount possible from the revenue derived from the disposition

of electricity to bond redemption and interest.

Respectfully submitted,
San Francisco Real Estate Board,
By (Sgd.) Geo. C. Boardman,
President.

City Efficiency League,
156 Eddy Street,
San Francisco.
February 1, 1926.

To the Honorable Board of Supervisors, San Francisco, California.

Gentlemen:

In all probability it did not occur to the previous Board of Supervisors to delve into the financial aspect of municipal distribution of Hetch Hetchy power, taking it for granted municipal distribution will be very profitable.

Our attention has been called to the following statement in the Journal of Electricity, August 15, 1926:

From 12 California power utilities an average return on investment was:

In 1922 .....8.89 per cent.
In 1923 .....8.61 per cent.
In 1924 .....7.01 per cent.

If this low percentage of return is correct, it certainly contradicts the figures given by several newspapers, which lead the people to believe the profits are five and tenfold.

We have made a careful investigation of the financial returns under municipal distribution, in comparing same with the revenue the City now derives it is a debatable question whether from a financial standpoint it will be advantageous for the City to distribute Hetch Hetchy power. Result of our investigation leads us to believe financial returns from power distribution will not make it possible to reduce the electric bills for the householder as is contemplated.

City Efficiency League, therefore, implores your Honorable Board to have prepared by the City Engineer and the Railroad Commission a comprehensive detailed financial statement of the profits which can be realized from municipal distribution of Hetch Hetchy power.

Respectfully submitted,
City Efficiency League,
By (Sgd.) Adolph Uhl,
Manager.

Whereas, James A. Arnott and

Mary B. Arnott, his wife, owners of lands adjacent to or fronting on the aforesaid portion of said street so closed and abandoned, have offered to convey or cause to be conveyed to the City and County of San Francisco, property for the opening of new streets, in lieu of such portion of said street so closed and abandoned; and

Whereas, said James A. Arnott and Mary B. Arnott, his wife, pursuant to their aforesaid offers, have caused to be made, executed and delivered to said City and County of San Francisco good and sufficient conveyances vesting in said City and County of San Francisco, for street purposes, the title to the parcels of land hereinafter more particularly described, in lieu of said portion of said street so closed and abandoned, as hereinbefore recited; and

Whereas, the said parcels of land so conveyed to said City and County of San Francisco as streets in lieu of that portion closed and abandoned as aforesaid, are more particularly described as follows, to-wit:

Beginning at a point on the southwesterly line of Santa Rosa avenue (formerly Jarnac street), distant thereon north 62 deg. west 307.758 feet from its intersection with a line drawn 80 feet northwesterly at right angles from and parallel with the southeasterly line of San Jose avenue; thence along the arc of a curve to the left with a radius of 10 feet tangent to said southwesterly line of Santa Rosa avenue, a distance of 10.13 feet in a southwesterly direction; thence along the arc of a curve to the left with a radius of 3761.83 feet tangent to the preceding course a distance of 163.555 feet in a southwesterly direction; thence along the arc of a curve to the left with a radius of 10 feet tangent to the preceding course a distance of 20.857 feet in a general southerly direction; thence tangent to the preceding course south 62 deg. 2 min. east 61.061 feet; thence south 28 deg. west 20 feet; thence north 62 deg. 2 min. west 75 feet; thence south 28 deg. west 20 feet; thence north 62 deg. 2 min. west 19.268 feet; thence along the arc of a curve to the left with a radius of 10 feet tangent to the preceding course a distance of 10.742 feet in a general westerly direction; thence along the arc of a curve to the left with a radius of 3761.83 feet tangent to the preceding course a distance of 157.254 feet in a southwesterly direction; thence along the arc of a curve to the left with a radius of 10 feet tangent to the preceding course a distance of 20.245 feet in a general southerly direction; thence tangent to the preceding course south 61 deg. 58 min. east 46.016 feet; thence south 28 deg. west 20 feet; thence north 61 deg. 58 min. west 60 feet; thence south 28 deg. west 20 feet; thence north 61 deg. 58 min. west 14.639 feet; thence along the arc of a curve to the left with a radius of 10 feet tangent to the preceding course a distance of 11.349 feet in a general westerly direction; thence along the arc of a curve to the left with a radius of 3761.83 feet tangent to the preceding course a distance of 123.493 feet in a southwesterly direction; thence along the arc of a curve to the left with a radius of 30 feet tangent to the preceding course a distance of 59.235 feet in a general southerly direction to the northeasterly line of Paulding street; thence along said northeasterly line of Paulding street north 62 deg. west 63.607 feet to the southeasterly line of lands of Southern Pacific Railroad; thence along said last-named southeasterly line along the arc of a curve to the right whose center bears south 39 deg. 40 min. 21 sec. east 3779.83 feet from this point a distance of 629.796 feet in a northeasterly direction to the aforesaid southwesterly line of Santa Rosa avenue; thence along said southwesterly line of Santa Rosa avenue south 62 deg. east 26.758 feet to the point of beginning; being portions of Colonial way, Nantucket avenue and Oloran alley.

Whereas, it is deemed advisable by this Board of Supervisors that said parcels of land be opened as new streets in lieu of that portion of street so closed and abandoned; and

Whereas, said lands so conveyed to the City and County of San Francisco for street purposes as aforesaid will and do constitute ample consideration to said City and County for its deed to the portion of said street closed and abandoned as hereinbefore recited and will be of much greater practical value, both to the City and County of San Francisco and to the general public. Now, therefore, be it

Resolved, That equity requires that the portion of said street closed and abandoned as aforesaid should be conveyed by the City and County of San Francisco to said James A. Arnott and Mary B. Arnott, his wife; and be it

ROLL CALL FOR THE INTRODUCTION OF RESOLUTIONS, BILLS AND MOTIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.

Golden Gate Ferry Franchise Rehearing.

Resolution No. 25148 (New Series), as follows:

Whereas, this Board of Supervisors, on the 24th day of August, 1925, passed Ordinance No. 6762 (New Series), granting a franchise to Golden Gate Ferry Company, a corporation, to erect, maintain and take tolls on a public ferry to be operated between the City and County of San Francisco, State of California, and the City of Berkeley, Alameda County, said State; and

Whereas, this Board, in passing said Ordinance No. 6762, found as a fact therein as one of its principal reasons for passing said ordinance that public necessity and convenience demanded the establishment of said public ferry; and

Whereas, by special resolution, also passed on said 24th day of August, 1925, this Board again found and emphasized the fact that public necessity and convenience demanded the establishment of said public ferry; and

Whereas, it has been made to appear that the Railroad Commission of the State of California has refused to grant to Golden Gate Ferry Company a certificate of public convenience and necessity upon the ground, among others, that there is no public convenience and necessity to be served by the establishment of said public ferry; and

Whereas, it is the opinion of this Board that the Railroad Commission of the State of California was not correct in its said conclusion that public convenience and necessity did not demand or justify the establishment of said public ferry and that Golden Gate Ferry Company should be given further opportunity to present to said Railroad Commission additional evidence tending to establish the convenience and necessity that would be served by the establishment of said public ferry; now, therefore, be it

Resolved, That it is the opinion of this Board that the Railroad Commission of the State of California should grant to Golden Gate Ferry Company a rehearing of its application to said Commission for a certificate of public convenience and necessity authorizing it to es-

tablish said public ferry in order to permit said applicant, as well as the traveling public, a full and complete opportunity to present to said Commission the true situation in relation to trans-bay ferry service, namely, that public convenience and necessity presently demands the establishment of a public ferry between the City and County of San Francisco, State of California, and the City of Berkeley, County of Alameda, said State; and be it

Further Resolved, That a copy of this resolution be delivered by the Clerk of this Board to said Commission.

Adopted by the following vote:

ROLL CALL FOR PETITIONS FROM MEMBERS.

Report of Spring Valley Water Company on Water Supply of San Francisco.

The following was presented and read by the Clerk:

Spring Valley Water Company
425 Mason Street
San Francisco, February 8, 1926.

Board of Supervisors, City Hall, San Francisco.

Gentlemen:

Responding to the request of the Public Utilities Committee of your Honorable Board for information in regard to the water supply of San Francisco, we are submitting the following data as of 7 a. m. February 8, 1926:

There is in surface storage in the reservoirs of the Spring Valley Water Company 8,270,000,000 gallons, which is 2,670,000,000 gallons more than was in storage on February 1 of this year. The reservoirs are still gaining due to continued stream flow. The underground sources of supply are also being replenished, through percolation from the gravel channels of the flowing creeks which cross the areas overlying the subterranean waters.

Since January 31, 1926, there has been a continuous flow over Sunol Dam which escapes down Alameda Creek to San Francisco. During the past week this waste reached 300,000,000 gallons daily but has diminshed to 10,000,000 gallons daily. Further rains will immediately increase the amount of this flow over Sunol Dam and if the submarine pipe of the Bay Division Hetch Hetchy conduit is completed in time 22,000,000 gallons daily of this water can be saved and diverted to Crystal Springs Reservoir. At the present time 10,000,000 gallons daily are being transported through the Bay Division conduit.

The surface storage of 8,270,000,000 gallons now on hand together with the existing development of the company's underground sources of supply is sufficient to meet the needs of San Francisco for 300 days.

Yours truly,
Spring Valley Water Company,
Per G. A. Elliott.

Supervisor Shannon presented:

Resolution No. 25173 (New Series), as follows:

Whereas, in accordance with the provisions of Ordinance No. 6440 (New Series), prescribing the procedure under which the Board of Public Works may construct public utilities, the Board of Public Works has procured from the City Engineer and filed with the Board of Supervisors an estimate or budget of proposed expenditures which will be necessary for the construction of the Foothill Division tunnels and appurtenant structures, and for preliminary construction work and shaft construction in the Coast Range Division of the Hetch Hetchy aqueduct, together with a general description and specification of the proposed work, all of which construction will conform with the Hetch Hetchy aqueduct construction program approved in Resolution No. 24083 (New Series), and will cover the completion of the Foothill Division and the work necessary in the Coast Range Division up to the point where actual tunneling operations will commence; and

Whereas, the total amount of said budget is the sum of $8,027,554, of which $6,525,000 is stated by the Board of Public Works to be the estimated cost of completing the Foothill Division of said aqueduct, including administration and engineering; and

Whereas, it appears to the satisfaction of the Board that said estimate of costs is in accordance with the plan approved by this Board in Resolution No. 24083 (New Series), and that the work therein outlined is necessary in continuance of the work already approved by Resolution No. 24382 (New Series); now, therefore, be it

Resolved, That budget of expenditures submitted by the Board of

Public Works is hereby approved to the extent of $6,525,000 for construction of the Foothill Division of the tunnel aqueduct and appurtenant structures, including administration and engineering, and the additional sum of $6,525,000 is hereby appropriated from the "Hetch Hetchy Water Construction Fund" (Issue of 1925), for the purpose of meeting the expenditures shown by said budget for said Foothill Division construction. Be it

Further Resolved, That the Auditor be and he is hereby directed to credit this appropriation with all sums that may become available through the sale of Hetch Hetchy Water Bonds, Issue of 1925, up to the amount of said appropriation, after he shall have satisfied the requirements of Resolution No. 24382 (New Series), appropriating $1,279,206 for the purposes mentioned in said Resolution No. 24083 (New Series); said credits to be made when the proceeds of such future bond sales shall be placed in the Treasury.

Financial Policy to Effect Secure Economies.

Supervisor McSheehy presented the following and moved its adoption:

Resolution No. 25193 (New Series), as follows:

Whereas, on January 15, 1926, the City Attorney instructed this Board that approximately $1,400,000 of the income from the sale of hydro-electric power, which the makers of the budget for 1925-26 had proposed to include in the general fund for the purpose of balancing said budget, could not legally be so included; and

Whereas, it has thereby become necessary for economies to be effected during the remainder of the current fiscal year to avoid the deficit thus indicated; and

Whereas, this Board already has effected the following economies by voting to rescind appropriations which had not become final:

Municipal garage	$ 91,700
Municipal warehouse and land for same	66,000
Marina lands (last year's surplus)	290,000
Total	$447,700

Whereas, the heads of the following departments and offices have expressed to the Finance Committee their ability and willingness to effect economies in their respective departments, within the budget allowance, to the following extent:

Department of Elections	$50,000
Police Department	20,000
Department of Public Health	15,000
Fire Department	10,000
Mayor's office	2,500
Total	$97,500

Resolved, And it is hereby declared to be the policy of this Board to refuse to approve any demands that may be made upon the following budget appropriations and the amount herein stated, to-wit:

Unexpended portion of appropriation for War Memorial and Civic Center	$400,000
Portion of $140,000 appropriated for Publicity and Advertising, of which $70,000 remains unexpended to date	35,000
Board Walk at Beach	10,000
Extensions to Main Sewers; total appropriation $300,000, of which $258,000 remains unexpended to date	100,000
Building for Fire Department	70,000
Total	$615,000

Summary.

Previously rescinded	$ 447,700
Department economies	77,500
Appropriations under control of Board	615,000
Total	$1,160,200

This shows that there is still a

deficiency of $250,000 (in round numbers) which must be secured by further economies.

Supervisor Gallagher moved as an amendment that the subject matter be laid over one week and made a special order of business for 3 p. m. and that former members of the Finance Committee be invited here to enlighten us as to their error in preparing budget.

Supervisor Gallagher: I favor a War Memorial. I do not favor predicating the future funds for any purpose. I will be glad to support an appropriation for War Memorial purposes when submitted, but reserve judgment on the amount until presented.

Supervisor Schmidt: In reference to my vote on the War Memorial appropriation, and as a veteran, I wish to state that I have no opposition to the War Memorial, but am heartily in accord with it; but feel that a commitment should not be made until the next budget is made.

Supervisor Roncovieri: I favor the building of the War Memorial and the amount of money required to do so, and will give every assistance in my power when the occasion arises.

Supervisor Stanton: In reference to my vote on the War Memorial appropriation, I wish to state that I have no opposition to the War Memorial, but am heartily in accord with it; but feel that a commitment should not be made until the next budget is made.

Supervisor Todd: In reference to my vote on the War Memorial appropriation, I wish to state that I have no opposition to the War Memorial, but am heartily in accord with it; but feel that a commitment should not be made until the next budget is made.

The question being put as to whether the vote on the War Memorial should be reconsidered, the same was *defeated* by the following vote:

Ayes—Supervisors Gallagher, Hayden—2.

Noes — Supervisors Badaracco Harrelson, Havenner, Kent, Marks McSheehy, Powers, Roncovieri, Schmidt, Shannon, Stanton, Todd, Welch—13.

Whereupon, the Chair announced that the original motion stands.

Supervisor Gallagher requested that he be recorded as voting *no* on all of the recommended cuts.

Supervisor Harrelson asked to be recorded *no* on the "Warehouse."

Supervisor Hayden objected to elimination of item for "Main Sewers" and asked for a roll call.

T. Riordan, president of the Board of Public Works, was granted the privilege of the floor and addressed the Board in opposition to the proposed elimination.

Whereupon, the roll was called on the item of "Main Sewers," with the following result:

Ayes — Supervisors Badaracco, Harrelson, Havenner, Kent, Marks, McSheehy, Powers, Schmidt, Shannon, Stanton, Todd, Welch—12.

Noes—Supervisors Gallagher, Hayden—2.

Absent—Supervisors Bath, Colman, Deasy, Roncovieri—4.

Noes — Supervisors Badaracco, Harrelson, Havenner, Kent, Marks, McSheehy, Powers, Schmidt, Shannon, Stanton, Todd, Welch—12.

Absent—Supervisors Bath, Colman, Deasy, Roncovieri—4.

Thereupon, the Chair declared that the motion to eliminate "Main Sewers $100,000" stands *adopted*.

Noes—Supervisors Gallagher, Hayden—2.

Absent—Supervisors Bath, Colman, Deasy—3.

Explanation of Vote.

Supervisor Gallagher: A majority of the Board having determined not to permit me to bring the matter of reconsideration of this report up at a future meeting, forces me to vote *no* on same. My hope was to be able to support the Finance Committee, but because I am not allowed one week in which to enlighten myself as to the correctness or incorrectness of the statements made by the committee on which said report is based, I am, therefore, forced to vote *no*.

Hon. Board of Supervisors of San Francisco
Care of Supervisor Wm. Harrelson, DeYoung Bldg., San Francisco, Calif.

On behalf of City Efficiency League I respectfully make a last appeal to your Honorable Board that you do not create that power operative fund at this time for following reasons: First, that the interest on forty-five million Hetch Hetchy Water Bonds is two million dollars a year. That you propose to divert all of the revenue which San Francisco will receive from sale of power this year, amounting to two million dollars net, into the contemplated power operator fund. That you propose to pay interest on only nine million dollars Hetch Hetchy Water Bonds, which will amount to only four hundred thousand of the two million dollars and will positively leave one million six hundred thousand interest to be raised by taxes to pay interest on the remaining thirty-six million Hetch Hetchy Water Bonds, whereas if you do not create this power operative fund now the revenue which San Francisco is now receiving from sale of Hetch Hetchy power will accumulate to two million dollars in present Hetch Hetchy operative fund and will pay interest on forty-five million Hetch Hetchy Water Bonds and therefore no taxes will be necessary. By so doing you will carry out your election pledge for economy; second, before you proceed with further expenditure of money for power extension you furnish the people a financial statement of possible earnings from municipal distribution of Hetch Hetchy power in order that the people can judge whether or not municipal distribution is justifiable. It is absurd

and unbusinesslike to go farther without this information.

Modesto Irrigation District Requests Stand-by Service.

The following was presented and read by the Clerk:

Jan. 21, 1926.

City and County of San Francisco, San Francisco, California.

Attention: Mr. Warren Shannon, Chairman Public Utilities Committee.

Dear Sir: It is the desire of the Modesto Irrigation District to obtain an electric stand-by service and as the City and County of San Francisco Hetch Hetchy development is owned by the people just as the Modesto Irrigation District is publicly owned, and as our problems are more or less in common, we prefer to obtain this service from your Hetch Hetchy lines.

Our present load amounts to 4200 KW and to allow for future growth, it is our desire to install a bank of three 3000 KVA transformers, making a total of 9000 KVA installed capacity which we estimate would take care of our needs for many years to come.

Our present demand for irrigation, drainage and municipal public purposes is about 2300 KW, and as we intend installing more drainage pumps this year and will continue to install more year after year until all drainage is under control, we estimate our demand for this service will be at least 3000 KW.

We have given this considerable thought and desiring to be fair to both sides, have arrived at the following:

The Modesto Irrigation District to install, at its own expense, a step-down substation of 9000 WVA capacity adjacent to your transmission line at some point in the Modesto Irrigation District.

That the energy received from the Hetch Hetchy line be metered on the primary side of the station with suitable watt-hour and demand meters.

That the Modesto Irrigation District pay the City and County of San Francisco 4 mills per KWH as metered by the above meter.

That the Modesto Irrigation District pay a monthly demand charge of 60c per KW of demand in excess of 3000 KW.

That meters be read each month and bills paid the City and County of San Francisco monthly.

That an agreement be executed by the City and County of San Francisco and the Modesto Irrigation District covering a period of 20 years.

We explain our proposal as follows: Taking the present Pacific Gas & Electric Company's schedule No. 6, which is the wholesale rate approved by the Railroad Commission, and working out the average demand charge for 9000 KW, we find the average to be 58c per KW of demand. We, therefore, feel that a 60c demand charge would be a fair charge. We ask for no demand charge on the first 3000 KW, as this will soon be the demand for public purposes and we feel that the 4 mills energy charge will be more than your cost of delivery. The 4 mills energy charge is assumed on the basis of 4.8 mills at the present terminus of your lines less line loss from Modesto. We ask that a 20-year agreement be executed in order that our capital expenditure for this connection might be taken care of through depreciation accounting.

Trusting the above will meet with your approval, we beg to remain,

Yours very truly,

MODESTO IRRIGATION DISTRICT.

Approval of Report of Civic Center Architects on Treatment of Fulton Street.

Resolution No. —— (New Series), as follows:

Whereas, a report has been filed by the architects for the Civic Center, comprising John Galen Howard, Frederick H. Meyer and John Reid, Jr., which report is as follows:

To the Building Committee, Board of Supervisors, City and County of San Francisco, California.

Gentlemen:

To supplement previous reports that have been submitted to you

SAN FRANCISCO
PUBLIC LIBRARY

during the year, especially that of last May, the following recommendations are presented regarding the future development and safeguarding of the Civic Center area:

First: It is recommended that Leavenworth street be carried through to Market street and that the necessary lands be purchased therefor in order to complete the street system of the Civic Center.

Second: That the architectural character of the structure to be built by the City on its twenty-foot strip of ground on the south side of Fulton street from Market to Hyde be definitely fixed and that the City adopt a policy of purchasing the gore corner of Market and Fulton streets to assure the architectural character of the entrance to the Civic Center.

Further, that the preparation of the detailed design be authorized in order that the adjoining property owners may be advised as to the architectural conditions to be met. This is particularly necessary in view of the proposal of the owner of the Pantages Theater property to finish his Hyde street frontage in accordance with the architectural treatment of the Fulton street building above referred to.

Third: That all of the remaining Civic Center sites be retained for municipal purposes exclusively.

Fourth: That provision be made for the completion of the paving of the Civic Center Plaza.

Fifth: That the architectural character of the proposed War Memorial, in view of its relation to the Civic Center, be subject to the approval of the City and County of San Francisco, through its authorized advisers.

Sixth: That in order to preserve a continuity of the original Civic Center scheme that this and all questions pertaining to the design, development and embellishment of the Civic Center be referred to an advisory committee consisting of those who have already taken part in its design and execution. This committee would consist of the three consulting architects of the scheme, the architects of the City Hall, the architects of the State Building and the architect of the Library Building.

From practical experience in the working out of the several elements connected with the Civic Center it has been found that its future dignity and uniformity of design can only be protected by a most careful supervision.

Very truly yours,
JOHN GALEN HOWARD,
FREDERICK H. MEYER,
JOHN REID, JR.,
Architects of the Civic Center.
By JOHN REID, JR.,

Therefore, be it Resolved, That the said report as herein set forth be and the same is hereby approved and adopted.

Confirmation of Sale of City Property, O'Farrell Street Fire House.

The following was presented, read by the Clerk, *filed* and ordered *spread in the Journal*:

San Francisco, Cal.,
February 18, 1926.

Hon. Board of Supervisors, City Hall, San Francisco.

Gentlemen:

In accordance with Section 9, Article II, Chapter II, of the Charter of the City and County of San Francisco, I have the honor formally to notify you of the auction of six (6) parcels of land heretofore under the control of the Fire Department, which took place at last Monday's session of your Honorable Board.

I am attaching hereto a description of each parcel together with the appraised value, as fixed by the Mayor, the Assessor, and the chairman of the Finance Committee of your Honorable Board.

Please be advised that at the public proceedings of February 15, to which I have just referred, the following were the high bidders:

Parcel No. 1—Jerome J. Weinstein, 156 Montgomery street, $8,000.

Parcel No. 2—Signe M. Hulting, 1351 California street, $14,650.

Parcel No. 3—F. S. Ballinger, 94 New Montgomery street, $12,500.

Parcel No. 4—Emory J. Nutting, 750 Florida street, $3,225.

Parcel No. 6—J. F. Dowling, 271 Russ Building, $3,700.

I, therefore, respectfully ask, in accordance with the Charter provisions heretofore referred to, that your Honorable Board confirm the sale of these parcels of land.

In connection with Parcel No. 5, which was included in these proceedings, the highest bid was that received from Mr. George Cohn, No. 9 Stockton street, in the amount of $87,500. Inasmuch as this parcel was appraised at $100,000 and because the law specifies that the bid must be at least ninety per cent (90%) of the appraised value, I do not ask confirmation of the sale of Parcel No. 5, which is automatically withdrawn.

Respectfully yours,
(Signed)
JAMES ROLPH, JR.,
Mayor.

Motion.

Supervisor McSheehy moved that the Board refuse to confirm sale of fire house property on O'Farrell street and that the Clerk be directed to readvertise for bids.

Mr. Cohn, highest bidder at last Monday's meeting, entered his formal protest to such action.

Supervisor Shannon moved as an amendment that the matter be referred to the City Attorney for his opinion as to whether or not the 90 per cent limitation applies as in the case of private sale of city property.

Amendment *carried*.

ROLL CALL FOR THE INTRODUCTION OF RESOLUTIONS, BILLS AND MOTIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.

Report on Water Storage.

Supervisor Stanton presented:

Resolution No. 25250 (New Series), as follows:

Whereas, this City for the past twenty years has annually been thrown into a condition bordering on panic by reports of alleged shortage of its water supply, which threatened water famine has been spread through official or semi-official or other sources, and which reports have been detrimental to the commercial and financial interests of this City, and if permitted to continue will have a tendency to depreciate property values (if that were possible), in this rapidly growing community; therefore, be it

Resolved, in order to avert such direful calamity, That the Spring Valley Water Company and the City Engineer be and are hereby requested to furnish the Water Service Committee of the Board of Supervisors separate monthly statements showing the amount of water actually in storage in the reservoirs of the Spring Valley Water Company on the first of each and every month and the total amount drawn therefrom during the preceding month, in order that this Board may be in a position to know when the quantity of water in storage is in danger of depletion without having to be advised of this serious condition by outsiders or other departments of the government having no jurisdiction in this matter and no responsibility in the premises.

Relative to Completion of Bay Crossing Conduit.

Supervisor Stanton presented:

Resolution No. 25251 (New Series), as follows:

Whereas, the report of Chief Engineer Elliott, of the Spring Valley Water Company, shows that in the recent rainfall between January 31, 1926, and February 8, 1926—a little over a week—as much as 300,000,000 gallons of water daily wasted over the Sunol Dam into the Bay of San Francisco, which wastage of many millions of gallons of needed water is indicative of similar losses every seasonal downpour; and

Whereas, the delay in the construction of the Hetch Hetchy Bay Crossing conduit, which was to have been finished in November, 1924, and has not yet been completed, has deprived this City of vast quantities of water essential to her prosperity and well-being; therefore, be it

Resolved, That the Chief Engineer of the Spring Valley Water Company be respectfully requested to furnish this Board with a statement covering the last ten years showing annually how much water might have been conserved from these losses during that period if the pipe line had been constructed, or temporary emergency measures adopted to prevent public calamity;

Further Resolved, That the City Engineer furnish the Water Service Committee of this Board with definite information as to when the Hetch Hetchy Bay Crossing conduit will be completed and ready to deliver water into Crystal Springs Reservoir and thus lay forever the ghost of water famine, which annually threatens the inhabitants of San Francisco with all its direful consequences of conflagration, famine and epidemics of disease.

son of baseball games to be held in San Francisco for the period covering the baseball season.

Bus Transportation.

Supervisor Havenner presented:

Resolution No. 25252 (New Series), as follows:

Whereas, many students of modern transportation contend that the pneumatic tire is destined to replace the steel wheel and the steel rail in the future development of urban surface rapid transit; and

Whereas, public passenger busses are now being operated extensively and, according to reports, successfully in a number of the largest cities in the United States, notably New York, Chicago, Detroit and Cleveland; and

Whereas, in the future extensions of our municipal transportation system it is of the utmost importance that service be rendered where needed without incurring too great indebtedness for construction and maintenance costs; therefore, be it

Resolved, That a joint committee consisting of the members of the Public Utilities and Finance committees of this Board be and is hereby authorized to consider the advisability of having a survey made of motor bus passenger transportation throughout America, and the employment of such expert assistance as may be necessary for the completion of this survey, and upon its completion to report back to this Board such recommendations as may be practicable for the installation and operation of additional motor passenger bus lines in San Francisco.

Pay Increase Endorsed.

Supervisor McSheehy presented:

Resolution No. 25253 (New Series), as follows:

Whereas, it has been called to the attention of the Board of Supervisors of the City and County of San Francisco by newspaper dispatches and otherwise that most of the employees on the Southern Pacific ferry system and Key Route ferry system, who operate all the ferryboats plying between San Francisco and Oakland, are required to work watches of twelve hours in duration and 56 hours per week; and

Whereas, the 8-hour day, with one day of rest in seven, has long been recognized by society as a whole as the standard work day and condition; and

Whereas, these men are employed in a service that is absolutely essential to the public welfare of San Francisco and all the east bay cities; and

Whereas, it is not in the public interest nor safety to require men employed on these boats, carrying 150,000 passengers daily and often as many as 5000 on a boat at a time, to work 12-hour shifts; and

Whereas, it is a matter of public knowledge that an arbitration board on December 3 last established the 8-hour day and 6-day week, effective January 1, 1926, for the men who operate the Oakland street cars and electric trains connecting with the Key Route Ferries, and that the Key System Transit Co. was granted subsequently an increase in rates for the primary purpose of meeting the increased wage cost incurred by the addition to the payroll of approximately 300 car men; and

Whereas, immediately thereafter the Southern Pacific Co. requested from, and was granted by the Railroad Commission a like increase in rates, not because there had been any additional cost to this company, but in order to maintain the rates on a par with its competitor, the Key System Transit Co.; and

Whereas, it is a matter of record on file with the State Railroad Commission that the annual increase in revenue to the Key System Transit Co. by reason that the rate increase is $846,000 and the wage increase due to the decrease in hours is $400,000; also, that the increase in revenue to the Southern Pacific Co. is $414,800 annually without any wage increase or other additional expense; and

Whereas, it is therefore evident that the Southern Pacific Co. received the revenue increase because its competitor was forced to grant its employees the 8-hour day; and

Whereas, we have been informed on good authority that the men employed on the Southern Pacific ferry boats have a request now pending before the United States Railroad Labor Board at Chicago, Ill., asking that the 12-hour watch system be abolished and the 8-hour day and 6-day week be established on the ferry boats; and

Whereas, we are also informed that it has been the practice to compel the ferry boat employees

to obtain conditions on the Southern Pacific and other interstate railroad ferries before the Key System Transit Co. would make any changes;

Resolved, That the United States Railroad Labor Board be and is hereby petitioned to act favorably upon the request of the ferry employees and establish in the interest of public safety and in the interest of fair dealing an 8-hour day and 6-day week.

Further Resolved, That the Key System Transit Co. be requested to act favorably upon the request of the men and establish the 8-hour day without further delay or hesitation; and finally

Resolved, That copies of this resolution be forwarded to L. M. Parker, secretary of the United States Railroad Labor Board, Transportation Building, Chicago, Ill., and Geo. H. Harris, general manager of the Key System Transit Co., Twenty-second and Grove streets.

Adopted by the following vote:

Ayes — Supervisors Badaracco, Bath, Gallagher, Havenner, Hayden, Marks, McSheehy, Powers, Roncovieri, Schmidt, Shannon, Stanton, Todd, Welch—14.

Absent — Supervisors Colman, Deasy, Harrelson, Kent—4.

Bus Line Operation.

February 26, 1926.

The Honorable Charles J. Powers,
Board of Supervisors.

Dear Sir:

In accordance with your request I am enclosing herewith copies of two reports of the City Engineer relative to the operation of a bus line on The Embarcadero by the Municipal Railway. The earlier of these two reports was made on May 9, 1922, and was largely an analysis of a report submitted by Mr. Sidney

way is not in suitable condition for the operation of passenger-carrying automobile buses.

In view of these conditions I still must recommend against the establishment of this service on the waterfront. Yours truly,

M. M. O'SHAUGHNESSY,
City Engineer.

City Attorney's Opinion on Sale of City Lands.

February 27, 1926.

Subject: Sale of City lands.

Gentlemen:

I am in receipt of a letter under date of February 24th, from the Clerk of your Board, asking that you be advised if when city property is sold at public auction whether or not it is necessary that 90 per cent of the appraised value thereof be received. Attached to the letter is a copy of a letter from his Honor the Mayor, addressed to your Board, reporting several sales of real estate owned by the city made by him at public auction in conformity with the charter provisions. In this letter the Mayor recommends the confirmation of five out of the six parcels sold, and has not asked for confirmation of the parcel described in his letter as Parcel No. 5.

Opinion.

I take it from the correspondence that the property sold was sold at public auction by the Mayor in conformity with Section 9, Chapter II, of Article II, of the Charter. This section provides that where real estate is sold at private sale, it cannot be confirmed by the Board of Supervisors unless the sum offered shall be at least 90 per cent of the appraised value thereof. There is no such limitation in the article in regard to a sale at public auction, and as the sale mentioned in your letter was made at public auction, you are advised that the 90 per cent limitation does not apply.

I also note from your letter that the bidder for Parcel No. 5 claims that he is entitled to have the bid made by him submitted to the Board for confirmation. I direct your attention to the further provisions of the above mentioned section of the charter, which provides that when a sale of property has been made by the Mayor, either at public auction or at private sale, he shall require from the person to whom the property is sold a deposit, amounting to 10 per cent of the sum bid, and he shall immediately thereafter at the next meeting of the Board of Supervisors report the fact of such sale with a statement of the sum bid, the name of the bidder, and a request that the Board confirm such sale. I note from the Mayor's letter that he has made no request that the Board confirm the sale of Parcel No. 5. On the contrary, he specifically asks that no confirmation of the sale of this particular parcel be made.

While the Mayor makes this request upon the ground that the amount bid is less than 90 per cent of the appraised value of the property, and as I have said before, this limitation does not apply to sales made at public auction, nevertheless, in view of the request of the Mayor, the Board will be justified in refusing to report this particular piece of property for confirmation, for the reason that the above mentioned section provides that the Board of Supervisors may, in its discretion, confirm or refuse to confirm any sale. I am of the opinion that this language is broad enough to give to the Board power to refuse to report any bid submitted by the Mayor, whether the same bears his recommendation or not.

You are, therefore, advised that the 90 per cent limitation does not apply to sales made at public auction, and furthermore, that Mr. Cohn is not entitled to have his bid reported for confirmation, and that the Board is free to readvertise the sale of the property in question.

Respectfully yours,
JNO. J. O'TOOLE,
City Attorney.

Dehon Street.

Privilege of the Floor.

Opinion of City Attorney.

February 27, 1926.

Subject: Damages to property owners for closing portions of Dehon street and Harlow street.

Gentlemen: I am in receipt of a letter from the Clerk of your Board under date of February 24th, advising me that your Board has under consideration the matter of closing certain portions of Dehon and Harlow streets, and that certani property owners owning property fronting on the portions of the streets which are not to be closed, have made a claim for damages by reason of the closing of the remaining portions of the streets, and that you desire to be advised whether such a claim would exist under the circumstances; and further, that if it should be determined that damage has been sustained by the property owners in question, and that the damage was a legal claim against the city, from what fund or funds the damage should be paid; and further, whether the damage should be fixed by the Board of Education or by the Board of Supervisors.

Opinion.

The law governing the procedure of closing streets within the City and County of San Francisco is found in Chapter III, Article VI of the Charter. Under the provisions of this chapter, the Board of Supervisors is given full power to extend, widen, straighten or close streets. The same chapter provides that the damage and expense of such opening, extending, straightening or closing of any street may be assessed in whole or in part on property benefited, or that the said

damage may be paid in whole or in part out of the revenues of the City and County.

The word "damage" used in the chapter mentioned unquestionably refers to damages occasioned by the taking of property, and has no application to the situation now before your Board. However, I am of the opinion that if any property owner can show damage by reason of the closing of any street on which his property fronts, that he is entitled to recover such damage. The Supreme Court of the State has determined this principle in the case of Eachus vs. L. A. Cons. Elec. Ry. Co., 103 Cal. 614, in which the court says:

"The right of an owner of a city lot to the use of the street adjacent thereto is property which cannot be taken from him for public use without compensation."

I have given careful consideration to the statements made in your letter, and also to the map showing the streets closed and the property fronting upon the unclosed portion thereof, and it is impossible for me to determine the amount of the damage sustained by the owners of the property, or even whether they have sustanied any damage. The amount of the damage should be determined either by agreement between your Board and the property owner, or, if such an agreement cannot be effected, then the property owner must have recourse to the courts to determine the damage.

Should it be determined either by your Board or by the courts that either of these property owners have sustained any damage, the amount thereof should be paid from the particular fund which has been set aside by your Board for the purchase of the property in which the closed streets are located. In this instance, I am informed that the property in question is being purchased for school purposes, and therefore you are advised that any damage which may have been sustained by property owners on account of closing the streets mentioned is a proper charge against the fund for the purchase of this property by the Board of Education.

Before any damage can be paid to any of the property owners, proper claims must be presented and filed with your Board in conformity with Section 8 of Chapter II, Article II, of the Charter.

Respectfully yours,
JOHN J. O'TOOLE,
City Attorney.

Adopted.

ROLL CALL FOR PETITIONS FROM MEMBERS.

Report of Special Committee on Quarters for District Attorney and Others in the Hall of Justice.

The following was presented and read:

March 5, 1926.

To the Honorable Board of Supervisors, City and County of San Francisco, City Hall.

Dear Sirs:

Your committee, consisting of Supervisors Shannon, Deasy and Bath, heretofore appointed for the purpose of investigating the Hall of Justice, filed its report with your Board on January 18, 1926, which report was on said last-named date read and accepted, and thereafter Supervisors Havenner and Powers of the Building Committee were added as members of the undersigned committee.

In pursuance of Resolution No. 25055, adopted by the Board of Supervisors on January 18, 1926, your committee received three bids which were filed with the Clerk on February 15, 1926, from owners of property in the vicinity of the Hall of Justice, to rent office space for use by the District Attorney's office, the Adult Probation Officer, the Public Defender's office, and the Grand Jury, namely, California Commercial Union Building, situate at Pine and Montgomery streets, Baldwin & Howell for the Security Building on Sansome street, between California and Sacramento streets, and Louis T. Samuels, for building at 333 Kearny street.

The price per square foot floor space submitted by the California Commercial Union Building was the sum of 25 cents per square foot, and your committee considered it too high and did not give the matter any further consideration. The price from the Security Building Company stated that it would be incumbent upon the City and County of San Francisco to install partitions, additional lighting fixtures, water fixtures, etc. The cost of the installation of these fixtures to be added to price per square foot would also make a prohibitive rate. The price per square foot floor space from Louis T. Samuels for the building at 333 Kearny street is the sum of 15 cents per square foot. Your committee inspected the offices in said building at 333 Kearny street, and find that the offices on the fourth floor are now ready for occupancy, and the remaining floors will be ready for occupancy on April 15, 1926, and no rent will be charged for the occupancy of the offices on the fourth floor until April 15, 1926.

Your committee finds that it is necessary that the matter of leasing offices for the departments named in said resolution should be immediately taken up by the Board of Supervisors, due to the fact that the office buildings in the immediate neighborhood are occupied to their fullest capacity, by reason of the fact that the owners of certain office buildings on Montgomery street, namely, the Russ, Lick and the building at California and Montgomery streets, have notified their respective tenants to vacate and seek other offices, which thereby creates a demand for office space

in the neighborhood of Kearny and Pine streets, and unless immediate action is taken, the City will suffer a loss and be unable to procure office space to accommodate the departments now being housed in the Hall of Justice.

Your committee's report now on file clearly shows the conditions prevailing in said Hall of Justice since 1912.

Your committee is not recommending nor providing space for the Bond and Warrant Clerk's office at this time, due to the fact that, upon investigation, we find that the work of the office is so closely allied with the Police Department and Criminal Courts that for the convenience of the public we deem it inadvisable.

Respectfully yours,
(Sgd.) WARREN SHANNON,
Chairman.
(Sgd.) C. J. DEASY.
(Sgd.) FRANCK R. HAVENNER.
(Sgd.) EDWIN G. BATH.

Report of Committee on "Bottleneck" Road Widening.

San Francisco, March 6, 1926.

The Committee appointed by his Honor Mayor Rolph at the request of the Board of Supervisors for the correction of the "bottleneck" conditions in San Mateo County, from Colma southerly to Baden, have held numerous meetings to discuss this subject.

During the year 1925 possibly a dozen separate meetings were held between the State Highway Commission, the Market Street Railway Company, the Southern Pacific Company, the City and County of San Francisco, the County of San Mateo, the cemetery representatives and the authorities operating the buses between San Francisco and San Jose.

The questions discussed at those different conferences were:

1. The width and location of the proposed highway.
2. The position of the tracks of the Market Street Railway Company. Changes from their present location to a central strip, with a high concrete curb on each side, will have to be made.
3. The conditions affecting cemetery improvements fronting the proposed highway.
4. The contributions to be made by the various interests affected.

The Southern Pacific Company at one time offered to donate a strip, part of their right of way, for the use of the Market Street Railway tracks, by which the Market Street Railway would be entirely removed from the highway and placed on a separate exclusive right of way. Up to a month ago this solution of the problem was mutually satisfactory to all the interested parties and a distribution of the expense was arranged as follows:

Market Street Railway Co.	$110,000
City of San Francisco.....	150,000
San Mateo County	50,000
State Highway Commission.	200,000

Grants of right of way by the cemeteries fronting the highway.

On Tuesday, February 16, 1926, Mr. Leavitt, right of way agent for the Southern Pacific Company, made announcement to the City Engineer that the previous offer of his company for right of way was withdrawn and that the proposal to move the Market Street Railway tracks onto it was off. This situation induced the Committee to take the matter up again with the Market Street Railway Company, leaving the Southern Pacific Company out of consideration.

The State Highway Commission, through their division engineer, then produced a plan which would comprise a right of way 124 feet wide, with a central strip 28 feet wide exclusively for railway purposes, with one 40-foot traffic highway and an 8-foot sidewalk on each side.

A discussion of this plan was had at the City Engineer's office on Tuesday, February 16, 1926, those present including Mrs. Samuel Kahn, Mr. Melnotte McCants and Mr. Legare of the Market Street Railway Company, Colonel Skeggs of the Highway Commission, Supervisor Richard J. Welch, City Engineer M. M. O'Shaughnessy and Assistant Engineer Clyde E. Healy on behalf of the City, and a new distribution of funds was suggested for the solution of the problem.

The Market Street Railway Company did not deem their new position in the center of the street as advantageous for rapid transit purposes as the previous right of way on the side and objected very strenuously to this new location as they did not believe it would be financially as beneficial to them as the exclusive rapid transit right of way along the Southern Pacific route.

The matter was still further discussed by the same Committee on February 24th, when President Kahn took very serious objections to the Market Street Railway Company contributing the amount of money promised on October 28, 1925, by President Starring, toward removal to the new private right of way.

Colonel Skeggs, in the meantime, had been conducting private negotiations with the cemetery authorities and on Monday, March 1,

secured a positive agreement from them of cooperating by donating their adjacent rights of way for the road widening.

On that date, also, two further conferences were held with the Market Street Railway Company officials, the City Engineer and Colonel Skeggs, and a definite final agreement was made with the Market Street Railway Company by which they acceded to removal to the less desirable location in the center of the highway for their railway. They estimated the cost of moving their tracks onto the new postion to be $113,000, and they finally consented to contribute one-half of this sum, or $56,500, towards reconstructing their tracks in the new location. This agreement opens the way for construction by the Highway Commission.

The contributions of San Francisco and San Mateo counties still stand the same toward the new roadway and it is hoped, with the aid of the Highway Commission, to complete this project at an early date, which is so necessary for public convenience and safety for human life approaching San Francisco on the public highways.

Approval of Methods Pursued by Federal and Municipal Officers in the Enforcement of the Volstead Law.

The following was presented by Supervisor McSheehy and *referred to the Public Welfare Committee.*

Whereas, the administration of the Volstead Law in San Francisco has been criticized by the organized "Anti-Saloon League" and kindred agencies; and

Whereas, the citizens of San Francisco, as a community, regard the rational methods pursued by the enforcement officers, Federal and municipal, as best calculated to accomplish the substantial purposes of the law; and

Whereas, representative bodies should express themselves, in order to neutralize the fanatical and censorious policies of the extreme dry forces, constituting a small minority of our people; therefore, be it

Resolved, That General Andrews and Colonel Greene be commended for the wise and prudent purpose of their plan to suppress illicit distilling of ardent spirits, or their importation, and leaving the police enforcement in the hands of local authorities, which are capable of law-enforcement, without unnecessary friction, and preserving the peace and order of the community, without bringing discredit upon our government.

Report of City Planning Committee.

The following reports presented by Supervisor Marks and *Clerk was directed to send copies to each member of the Board.*

In the Matter of the application of *W. S. Ray Manufacturing Company* for change of classification of northwest corner of Bosworth and Rousseau streets.

The applicant herein is engaged in the manufacturing of oil-burning heating apparatus and since the year 1906 has been located on the north line of Bosworth street between Rousseau and Milton, its present plant occupying a frontage of 200 feet by an average depth of 228 feet. The frontage of the block now occupied by it is zoned for commercial purposes and the rear thereof for second residential purposes, but the applicant having conducted

an industrial plant for many years before the enactment of the zoning ordinance, it has continued as a non-conforming use. Boswort street for ten blocks of its length is zoned commercially, namely, from Mission street to Chilton avenue and the Ray plant is located approximately in the center of this territory.

This committee conducted hearings upon this application on February 3, 1926, and February 10, 1926, and made an inspection of the plant and the surrounding territory on March 2, 1926. In addition, a conference between the applicant and various protestants was held on February 18, 1926, at the suggestion of this committee for the purpose of reconciling their respective points of view, if possible.

The applicant seeks a reclassification of a parcel of land lying to the west of its present building, from commercial to light industrial, to permit the erection thereon of a new building to be used in connection with its existing plant.

Testimony presented by the tioner is to the effect that it plans the erection of a building to cost $34,000. This building, it alleges, is made necessary by two factors, namely: (1) the growth of its business, necessitating additional facilities; (2) reduction in the area of its present plant by reason of the creation of the Bernal Cut project. The petitioner now has an area of 55,000 square feet. Its present site was leased in 1906, at a time when there were few residences in the neighborhood, nor, as it alleges, streets or sidewalks. This company operates a machine shop in its plant, but has no furnaces or foundries therein. It employs between 140 and 160 persons, with a payroll of approximately $125,000 a year.

The protestants base their opposition upon the ground that there are many residences in the immediate neighborhood, that the territory is developing for residence purposes and that an industrial plant is objectionable in their midst. At the conference held on February 18, 1926, the representatives of the petitioner offered to construct the new building along architectural lines agreeable to the residents in the vicinity, but the protestants, as appears from the stenographic report of this conference, on file with this committee, summed up their point of view in the following terms: "It doesn't matter what kind of building, we don't want an industrial building."

It should be pointed out that a denial of the pending application will not result in the removal of this industrial plant. The municipality would have no power to prevent the applicant from continuing to operate in its present building. The denial of the application would have the effect solely of compelling the petitioner to operate under disadvantages resulting from insufficient space, the healthy growth which it has had would be stunted, and in addition its area, already too limited, would be further reduced by the Bernal Cut. This committee is of the opinion that an industry employing so large a number of people should be encouraged, rather than hampered in its growth.

In addition, it is worthy of note that the presence of the railroad right of way to the rear of the building, together with the proposed car lines alongside thereof, will be a deterrent to the erection thereon of new homes.

While this committee does not possess the power to exact such a condition, we have obtained the assurance of the petitioner that it will not only construct the proposed new building in a manner which will be architecturally pleasing to the immediate vicinity, but that it will, in addition, if the application is granted, expend a considerable sum of money in adorning its present building by a new surface thereon and by the planting of lawns and shrubs.

We recommend that the application be granted.

CITY PLANNING COMMITTEE,
By MILTON MARKS,
Chairman.

Board of Public Works to Contract for Safety Lane Markers.

Bill No. 7507, Ordinance No. —— entitled "Directing the Board of Public Works to enter into contract for installing safety lane markers in the public streets."

Crew of American Tanker "Java Arrow" Commended.

Supervisor Todd presented:

Resolution No. 25330 (New Series), as follows:

Whereas, Capt. Geo. Irwin and crew of the American tanker "Java Arrow" is receiving the high encomiums of the Japanese Government through the Consul General of Japan, Tashihitsa Takitomi, for their noble rescue during a terrific

gale of fourteen unfortunate and starving members of the crew of the Japanese vessel "Daisha Maru," who has presented a silver cup to the officers and crew of the American vessel, and now asks that the American ship be permitted to return as soon as possible to Japan in order that they may receive the homage of a grateful Emperor and his appreciative subjects; therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco takes pleasure also in commending the high degree of heroism displayed by the officers and men of the "Java Arrow," for the gallant manner in which they rendered succor to the crew of the "Daisha Maru" and congratulate them on the worthy manner in which they have upheld the highest traditions of American seamen.

Report of City Planning Committee.

In the matter of the application of *Kernan Robson* for change of classification of the northwest corner of Jackson and Gough streets.

The petitioner, Kernan Robson, is the owner of a parcel of real estate on the northwest corner of Jackson and Gough streets. This property has a frontage of 137 feet 6 inches on Jackson street and a depth and frontage on Gough street of 127 feet 8¼ inches. The block in which this property is located, together with this particular parcel, is now zoned in the first residential classification. The petition, applicable solely to the parcel owned by the petitioner, seeks a change of this lot to second residential classification for the purpose of permitting the erection thereon of an apartment house. The petitioner, a resident of Marin county, acquired this property in September or October, 1925, and made application for a change of classification about sixty days thereafter. The exact character and cost of the proposed apartment house structure was not definitely developed by the petitioner at the hearing before the committee.

This committee conducted a hearing upon the petition on February 18, 1926, and in addition we have had the advantage of a very thorough and scholarly memorandum submitted by the petitioner. At the hearing the petitioner appeared in person and through his attorney, Frank J. Fontes, Esq., and the protestants, many of whom were personally present, were represented by the following attorneys: Messrs. Brobeck, Phleger & Harrison; Messrs. Robbins, Elkins & Van Fleet; Messrs. Heller, Ehrman, White & McAuliffe; Messrs, Neumiller & Dietz; Hon. Jeremiah Sullivan.

In addition to the oral hearing, this committee has made a personal inspection of the property directly involved and of the surrounding district.

The petitioner, orally and in his written brief, contends that the six blocks touched by the 275-foot radius having his property as the center, namely, the blocks bounded by Washington, Broadway, Franklin and Octavia streets, are overwhelmingly second residential in nature. These six blocks, he contends, contain an area of 640,251 square feet, of which 392,684 square feet are now zoned for second residential purposes. Of the remaining 247,507 square feet limited to first residential purposes, only 136,333 square feet, he contends, are actually opposed to rezoning, which would appear to lead to the conclusion that the owners of 503,918 square feet of property within the six blocks are in favor of the pending application. We have, however, carefully checked over the voluminous series of statistics submitted to us, and our own computations show only 27,508 square feet which can be claimed to be definitely in favor of the petition. These consist of the following:

(a) The petitioner (137 feet 6 inches by 127 feet 8¼ inches), amounting to 17,403 square feet.

(b) N. D. Hopkinson, southwest corner Jackson and Gough (60 feet by 125 feet 8¼ inches), amounting to 7,545 square feet.

(c) Alden M. Wheeler, southwest corner Pacific and Gough (50 feet by 50 feet), amounting to 2,500 square feet.

It is apparent from the foregoing computations, which this committee itself has made, that so far as appears from unequivocal expressions of consent or desire, only ten per cent plus of the property owners within the six blocks seek this rezoning and that of this ten per cent plus almost two-thirds is made up out of the single holding of the petitioner himself.

The petitioner has submitted detailed computations and photographs of the six surrounding blocks with the intention of demonstrating, as he himself expresses it, that the residences in the neighborhood are "old-fashioned houses,

more in the nature of private hotels, lived in by adults for a limited part of the time and as soon as these people die or move away, which will not be long, these houses will be abandoned." It appeared, however, to the committee from observation of a score or more of the citizens referred to, who were present at the hearing and who registered an earnest protest against the petition, that they were far from willing to wrap the draperies of their couch about them and to lie down to pleasant dreams. In fact, they quite eloquently evoked memories of supreme happiness in structures, which while pretentious, were to them homes in the purest sense, occupied by them for a generation, and possessing pleasant associations from which, this committee is quite satisfied, their occupants could not part without pangs of very deep regret. This neighborhood, far from being a decadent one, as the petitioner contends, is occupied by citizens who have reared their families in the very homes they still occupy, and who have made an impress upon the life of San Francisco which time will never efface. In the block in which the applicant's lot is located, and in fact immediately adjoining it, a home is at this moment under course of construction by Mrs. William Matson, to be occupied by her, and to cost $100,000. Next to her is the residence of her daughter, Mrs. William Roth, constructed in 1921 at a cost of $146,000 and occupied by her family. Within 300 feet of the Robson property, on the southwest corner of Octavia and Jackson streets, four residences have been constructed within the last year at a cost of $150,000. The property at the northwest corner of Gough and Pacific avenue was acquired six months ago for private residential purposes at a cost of $145,000 and its present owner is now expending an additional sum of $85,000 in its improvement. The committee is of the opinion that this district is one of the beauty spots of San Francisco and that every effort should be made by a governmental body to perpetuate it as such unless the demand for sites upon which apartment houses may be constructed becomes so necessitous that a residence district of this character must give way to such apartments.

The issue thus resolves itself to the following determining question: Does this demand exist to such degree that the Robson property should be made the site for what would constitute the only apartment house in an entire block of splendid private residences? This committee is of the opinion that the demand does not, at present, exist. In the first place, the petitioner's own brief, his maps and his computations show that, of the six blocks which he has taken as the basis of his argument, over three and one-half blocks are already zoned to permit apartment houses and are thus available in the immediate vicinitv for this purpose.

This committee, in addition, has made a survey of a considerable portion of this city in territory where apartment houses may be advantageously constructed and we submit the following to the Board as an aid to it in arriving at a conclusion as to whether or not the erection of an apartment house upon the site owned by the applicant is necessary.

We compute that in the territory between Van Ness avenue, Fillmore, Sutter and Union streets there are 84 square blocks of which only 12 square blocks are limited to first residential purposes, 3 square blocks are devoted to parks, 6 square blocks for commercial purposes, and 6 square blocks for light industrial purposes, leaving for second residential purposes, including therein apartment houses, 57 square blocks. If we add to this the territory zoned for commercial and light industrial purposes, within which apartments are permitted, there are in this territory 69 square blocks, out of 84, in which apartments may be constructed. We find also, from our computations, that in the district between Fillmore, Lyon, Sutter and Union streets there are 56 square blocks available for apartment houses, and in the district between Van Ness avenue, Powell, Sutter and Union streets an additional 96 square blocks for this purpose. In short, in the territory between Powell, Lyon, Sutter and Union streets, comprising 264 square blocks in all, apartment houses are excluded from only 43 square blocks, leaving 221 square blocks open to them. In addition, in the territory bounded by Fulton and Lake streets, Arguello boulevard and Forty-eighth avenue, there are 286 square blocks, of which 284 square blocks are open to apartment houses, and in the district between Union and Chestnut streets, Van Ness avenue and Lyon street there are 56 square blocks, of which 55 are available for apartments. In the aggregate, in the territory which we have described, there are 606 square blocks, from only 46 of which apartments are excluded, leaving 560 square blocks

available for this type of structure. This does not take into consideration 453 square blocks in the Sunset District, now entering upon an era of tremendous growth, in which 451 square blocks, out of a total of 453, are open to apartment houses.

The purpose of the legislation looking toward the scientific zoning of the City of San Francisco for the development of its best interests from the viewpoint of health, comfort, convenience and general welfare, is not properly subserved if the first residential zoning of a block actually devoted to single-family dwellings is violated to permit a property owner to construct what will constitute the only apartment house in the entire block, unless the economic need of the contiguous territory demands such use. In the present instance this committee is of the opinion that such need has not been shown. It is not outside of the limit of probabilities that this particular block may, with the passing of time, undergo a change of such character as to justify its gradual and eventually its complete absorption into the apartment house district, but this stage, in the opinion of the committee, has not as yet been reached, and we believe that the welfare of the City will best be served by deferring the destruction of this block of splendid residences.

We accordingly recommend that the petition be denied.

March 15, 1926.

Board of Supervisors, City and County of San Francisco.

Gentlemen: Resolution No. 25283 (New Series), asking for the removal of certain offices in the Hall of Justice and the leasing of 7,902 square feet of floor space for a term of five years at a rental of $74,081 at number 333 Kearny street was adopted on March 8, 1926, and, according to Rule 12 of this Board,

I served notice of reconsideration on the adoption of this resolution.

The origin of this resolution had its inception in a report from the Grand Jury, dated August 6, 1925, a copy of which is herewith attached, requesting the Finance Committee to make the necessary appropriation. Just what action the former Finance Committee took in reference to this report I do not know, but on November 16, 1925, three months later, Supervisor Shannon, by motion, requested his Honor Mayor Rolph to appoint a special committee of three to report on the crowded conditions of the Hall of Justice.

On January 18, 1926, this committee was augmented by the addition of the Building Committee.

A great mistake was made in the adoption of this committee report, and I trust the same will be reconsidered for the following reasons, to-wit:

1. The Grand Jury's report asking for an appropriation which demanded an investigation by the former Finance Committee, was never made.

2. The special committee made no attempt at any time to look into certain feasible alterations that can be made to the Hall of Justice building.

At the request of Supervisor Powers, chairman of the Building Committee and a member of the special committee, I was invited to make an investigation of certain alterations in the Hall of Justice that would provide sufficient floor space as requested by the Grand Jury, and we found in making survey that the Identification Bureau and the protograph gallery can be placed on the roof. Some months ago a fire took place in the photograph gallery, which was on the roof, and necessitated the placing of that department with the Identification Bureau, entirely crowding both departments.

The main lightwell over the police garage to be decked for additional floor space. Lightwell facing the Coroner's office to be decked. County Clerk's branch office to be reduced from two rooms to one. Police Commissioner's suite, now used principally for meetings once a week to be curtailed, providing extra room for active police department work. One locker room in central station to be remodeled for extra traffic bureau.

These alterations can be made for approximately $50,000.

The leasing of 333 Kearny street calls for an expenditure of $14,233 annually, which reflected into a capital investment would mean an expenditure of $142,330, whereas the alterations would cost but $50,000, making a saving of $92,330. We would also be confronted with an expenditure of approximately $20,000 in remodeling the offices that would be vacated, making a total loss of $112,330.

3. The resolution is illegal on the ground that there is no money in this year's budget to meet said expenditure, and it commits this Board to an expenditure of $2,953 in next year's budget, which the courts have decided a number of times that such a commitment is not legal.

4. The Grand Jury report of August 6, 1925, called for the Finance Committee to make an appropriation for this work, which was never done, and the same has never been referred to the present Finance Committee.

In closing, I am going to ask your honorable body to reconsider the resolution, and if you will take such action I will immediately ask that a report be rendered by the City Attorney as to the legality for contracting for the expenditure of sums of money in this year out of next year's budget appropriation.

(Sgd.) J. B. McSHEEHY.

August 6, 1925.

Resolution adopted by the Grand Jury of the City and County of San Francisco, in session, August 6, 1925.

Whereas, this Grand Jury of the City and County of San Francisco, session of 1924, has recently completed an exhaustive investigation of conditions existing in the conduct of business carried on at the Hall of Justice in this City; and

Whereas, the said investigation has shown that there is insufficient office space for certain City officials now located in said Hall of Justice; therefore, be it

Resolved, That we recommend to the Finance Committee and through them to the Board of Supervisors of this City and County that a sufficient appropriation be made at once for proper offices for the District Attorney and his several Assistant District Attorneys and employees, and also for the Public Defender and the Adult Probation Officer and his assistants and employees in some office building located within reasonable distance of said Hall of Justice. And be it

Further Resolved, That the entire space in the Hall of Justice be turned over to the Police Department except the office of the Bond and Warrant Clerk and the Supe-

rior and Police courts, as the Police Department is now badly congested in its present offices and needs more space at once if its business is to be properly carried on.

And we further recommend that an appropriation be made for the amount necessary to clean, renovate and change such space for their offices as may remain after the removal from their present offices of the District Attorney, Public Defender and Adult Probation officials to some outside office building; and be it

Further Resolved, That a copy of this resolution be sent to the Mayor and each member of the Board of Supervisors of the City and County of San Francisco.

(Signed)

HARRY A. FIALER,
Secretary, 1924 Grand Jury.

Notice of Reconsideration.

The following resolution, heretofore on March 8, 1926, adopted by the Board of Supervisors, was taken up on motion for reconsideration.

Supervisor McSheehy, at the meeting of March 8, 1926, upon the passage of the following resolution, gave notice that the would move for a reconsideration of the vote at this meeting whereby said resolution was adopted:

Resolution No. ——— (New Series), as follows:

Whereas, heretofore the City and County of San Francisco, by Resolution No. 25055, adopted by the Board of Supervisors of said City and County of San Francisco, invited bids for the leasing to the City and County of San Francisco, premises for use as offices for the District Attorney's office, the Adult Probation Officer, the Public Defender's office, and the Grand Jury; and

Whereas, an offer has been filed with the Clerk of the Board of Supervisors of said City and County of San Francisco, by Louis T. Samuels, to lease to the City and County of San Francisco, in accordance with said Resolution No. 25055, certain offices on the fourth and fifth floors and the entire sixth and seventh floors in that certain building situate on the west side of Kearny street between Bush and Pine streets, and known and designed as No. 333 Kearny street, as per floor plans of said premises submitted by said Louis T. Samuels, and containing 7902 square feet of floor space, for a term of five (5) years, two and one-half (2½) months, at a monthly rental of fifteen cents per square foot of floor space, or at an annual rental of $14,233.60, thus making $74,081.25 total rental payable for said floor space, and payable in lawful money of the United States as follows:

The sum of five hundred ninety-two and 65-100 ($592.65) dollars due on April 15, 1926, for the one-half month commencing April 15, 1926, to and including April 30, 1926; the sum of $1,185.30 due for the month commencing May 1, 1926, and the sum of $1,185.30 due for the month commencing June 1, 1926, aggregating the sum of $2,963.25 to be payable on July 1, 1926, and the sum of $1,185.30 payable on July 1, 1926, for the month commencing July 1, 1926, and a like sum of $1,185.30 on the first day of each and every month thereafter until the said sum of $74,081.25 has been fully paid; and

Whereas, the said offer of said Louis T. Samuels is the best and lowest offer submitted pursuant to said resolution; therefore, be it

Resolved, That said offer of said Louis T. Samuels be and the same is herbey accepted; and be it

Further Resolved, That his Honor the Mayor be and he is hereby authorized and requested to enter into a lease on behalf of the City and County of San Francisco, with said Louis T. Samuels, for the said premises, as shown and described in the floor plan submitted by said Louis T. Samuels, located in said building known and designated as No. 333 Kearny street, for the period of five years, two and one-half months, for use as offices for the said District Attorney, the Public Defender, the Adult Probation Officer and the Grand Jury, at a monthly rental of fifteen cents per square foot of floor space, or at the annual rental of $14,223.60, thus making $74,081.25 total rental payable for said floor space, and payable in lawful money of the United States as follows:

The sum of five hundred ninety-two and 65-100 ($592.65) dollars due April 15, 1926, for the one-half month commencing April 15, 1926, to and including April 30, 1926, the sum of $1,185.30 due for the month commencing May 1, 1926, and the sum of $1,185.30 for the month commencing June 1, 1926, aggregating the sum of $2,963.25, to be payable on July 1, 1926, and the sum of $1,185.30 payable on July 1, 1926, for the month commencing July 1, 1926, and a like sum of $1,185.30 on the first day of each and every month thereafter until the said sum of $74,081.25 has been fully paid, and said lease is to be approved by the City Attorney of the City and County of San Francisco.

Further Resolved, That the Mayor and the City Attorney shall negotiate with the proposed lessor for the purpose of obtaining a clause in the lease providing for the cancellation of said lease within a reasonable time.

Further Resolved, That when completed said lease shall be submitted to the Board of Supervisors for ratification and shall not be effective until approved by the Board of Supervisors.

Discussion.

Supervisor Shannon, chairman of the Special Committee, urged the rental of space at some point near the Hall of Justice and recommended the McLeran Building as being the lowest bid and a desirable location.

He read a bid which had been submitted by two friends of his which was only 12 cents per square foot, but called attention to the fact that it had not been received by him until several days after all other bids had been received and opened in the Board and therefore could not be considered by the committee.

Supervisor Shannon read a report from the City Engineer's office in which he estimated the cost of altering the Hall of Justice at a much greater figure than that mentioned by Supervisor McSheehy and called attention to the fact that while building in the light wells, as Supervisor McSheehy suggested could be done, it would be at the sacrifice of light and air to the present offices. He also called attention to the fact that the building had not been constructed with the idea of the addition of another story and therefore, even though this might be arranged, it would be more expensive than if originally planned.

Supervisor Powers said he thought there should be a $2,000,000 bond issue for the purpose of constructing a new Hall of Justice.

Supervisor McSheehy stated he thought the agreement would be illegal because it provided for the payment of two and one-half months' rental out of the next year's budget.

City Attorney O'Toole informed the Board that such appeared to be the case.

Amendment.

Whereupon, on motion of Supervisor Shannon, seconded by Supervisor Bath, the resolution was amended by providing that the rent from April 15 to June 30 shall be appropriated out of the General Fund.

Passed for Printing.

Thereupon, the resolution was *passed for printing* by the following vote:

Ayes—Supervisors Bath, Colman, Deasy, Gallagher, Harrelson, Havenner, Hayden, Kent, Marks, Roncovieri, Schmidt, Shannon, Todd—13.

Noes — Supervisors Badaracco, McSheehy, Powers, Stanton, Welch —5.

Supervisor Powers changed his vote from *no* to *aye* and gave notice of reconsideration.

Supervisor Shannon moved immediate reconsideration.

Whereupon, the rules were suspended and a vote taken at once as to whether the matter should be reconsidered, with the following result:

Ayes — Supervisors Badaracco, McSheehy, Powers, Stanton, Welch —5.

Noes—Supervisors Bath, Colman, Deasy, Gallagher, Harrelson, Havenner, Hayden, Kent, Marks, Roncovieri, Schmidt, Shannon, Todd—13.

Whereupon, the resolution was declared *passed for printing.*

Explanation of Vote.

Supervisor Marks explained his vote by saying that he would vote for the resolution; that he considered the action preliminary and not final. When the lease itself is before the Board that will be final and I reserve the right to vote against it if it contains a revocation clause.

Resolution of Respect.

Mayor Rolph called attention to the death of John B. Ginty, County Assesor, and called attention to the sterling qualities and efficient service to the City of Mr. Ginty. When the Board adjourned, it did so out of respect to the memory of Mr Ginty.

Death of Assessor John Ginty.

Supervisor Hayden presented:

Resolution No. 25335 (New Series), as follows: ;

To the profound sorrow of this Board the announcement has been made of the death of John Ginty, the Assessor of the City and County of San Francisco for the past twelve years, and it is our duty and our desire that there should be inscribed in the Journal of Proceedings a testimonial reciting the value of his services as an official, the fidelity which he displayed to a high ideal of citizenship and his possession of human sympathy toward his fellowmen.

From the inception of his official career he displayed an intense interest in all matters relative to the intricate problem of taxation and

an aptitude for comprehending the vexatious questions continually arising from the complexities of our system. He was a student of this branch of political economy and took an active part in public discussions of the subject. In the discharge of his official duties he applied the principles which his mind deemed to be just and none there were who denied his sincerity and honesty.

So it is our estimation that, in the death of Assessor Ginty the community has suffered a severe loss and one that will be difficult to retrieve. We deplore his passing and offer our condolences to the surviving members of his family.

Adopted unanimously by rising vote.

Report of Traffic Committee on Resolution of Supervisor Andrew J. Gallagher, Creating a New Traffic Commission.

The following matters were presented, read and on motion *laid over one week.*

The new Traffic Commission was organized pursuant to Resolution No. 20654 adopted by the Board of Supervisors on January 8, 1923. The said resolution gave certain powers to the commission and which commission, under that resolution, was authorized to investigate the existing traffic conditions within the City and to study the question of providing for the anticipated growth of traffic during years to come and to present a report of such study, with such plans and recommendations as may be deemed appropriate.

It was further declared to be the purpose to promulgate at the earliest possible moment a comprehensive traffic plan by which public safety and convenience, present and future, may be promoted. Notwithstanding, the broad scope of authority afforded by the above resolution, the commission could not employ an expert engineer for their guidance.

The resolution now before us is far less comprehensive and its adoption would not strengthen or make broader any authority to such a commission and this committee feels that the resolution before us is inferior to the above resolution and would not assist in the unravelling of the traffic problem.

While we believe that an engineer should be employed and that such engineer should work under the authority of the Board of Supervisors or the Police Department and at the same time give his assistance and advice to the Traffic Commission, we feel that it is a matter for the Board of Supervisors to investigate. We, therefore, recommend that the resolution be not adopted.

C. F. TODD.
EDWIN G. BATH.
WALTER J. SCHMIDT.

Resolution No. ——— (New Series), as follows:

Whereas, it is important that an intensive study be given to the traffic conditions at present existing in San Francisco and a solution sought of the various problems involved in a proper control of traffic in the streets, and adequate provision be made for the future growth of the city, that an experienced expert be employed for that purpose; therefore, be it

Resolved, That his Honor the Mayor be requested to recommend to this Board the creation of the position of Traffic Engineer, to perform the duties outlined in the preamble to this resolution, at a salary to be hereafter fixed.

UNFINISHED BUSINESS.

Dear Mr. McSheehy:

I am in receipt of your letter under date of March 18, reading as follows:

"The Finance Committee of the Board of Supervisors desires your opinion upon the following points:

1. After the annual budget for the current fiscal year has been adopted as provided in the Charter, can the Board of Supervisors appropriate and authorize the expenditure of additional sums 'from the General Fund' for purposes not mentioned in the budget?

2. Can the Board of Supervisors estimate any surplus revenue to accrue at the end of a fiscal year (meaning revenue in excess of budget appropriations) and authorize the expenditure of the same prior to the end of the fiscal year?

3. To what extent should the opinion of former City Attorney

Franklin K. Lane (Lane's Opinions, page 373) be affirmed, modified or reversed?

4. Will your opinion on the foregoing invalidate the resolution pending in this Board, a copy of which is attached?"

There is attached to the letter a copy of pending resolution relative to leasing of premises No. 333 Kearny street.

The questions which the Finance Committee desire answered are of extreme importance and demand a most careful and exhaustive research. In view of the amount of work necessary to make this research and the short interval intervening between the receipt of your letter and this date, I have been unable to comply in my investigation of the matter. I will, however, endeavor to advise your committee regarding it in time for its weekly meeting on Friday.

Whereas, by Ordinance No. 6939 (New Series), approved January 21, 1926, the Board of Supervisors determined that public interest and necessity demanded the sale of the land hereinafter described and hereinbefore referred to as formerly dedicated for Fire Department purposes, and by said ordinance directed the Mayor of the City and County to sell all of said land by public auction, to be held on or before the 15th day of February, 1926, and directed that notice of said sale be given for three weeks successively next before the sale, as required by law; and

Whereas, the Clerk of the Board of Supervisors thereafter proceeded to publish notice of said sale in the official newspaper and one other daily newspaper published in the City and County for three weeks successively next before said sale was directed to be made, describing the land to be sold therein with common certainty and stating the date on or after which said sale would be made, as specified in Ordinance No. 6939 (New Series), and that all bids or offers would be received by the Mayor at the chambers of the Board of Supervisors in the City Hall, City and County of San Francisco, State of California, on or after said date; and

Confirming the sale of land owned by the City and County of San Francisco, heretofore set aside for Fire Department purposes.

Whereas, by Ordinance No. 6939 (New Series), approved January 21, 1926, the Board of Supervisors determined that public interest and necessity demanded the sale of the land hereinafter described and hereinbefore referred to as formerly dedicated for Fire Department purposes, and by said ordinance directed the Mayor of the City and County to sell all of said land by public auction, to be held on or before the 15th day of February, 1926, and directed that notice of said sale be given for three weeks successively next before the sale, as required by law; and

Whereas, the Clerk of the Board of Supervisors thereafter proceeded to publish notice of said sale in the official newspaper and one other daily newspaper published in the City and County for three weeks successively next before said sale was directed to be made, describing the land to be sold therein with common certainty and stating the date on or after which said sale would be made, as specified in Ordinance No. 6939 (New Series), and that all bids or offers would be received by the Mayor at the chambers of the Board of Supervisors in the City Hall, City and County of San Francisco, State of California, on or after said date; and

Whereas, the Mayor, the Assessor and the chairman of the Finance Committee, being the Board of Appraisement constituted by the Charter of the City and County of San Francisco for such purpose, thereafter duly met and made an appraisement of said land and fixed the fair value thereof at the sum of $11,500, and reported said appraisement to the Board of Supervisors in writing; and

Whereas, thereafter, and on the 15th day of February, 1926, at public auction, the Mayor sold said property to F. S. Ballinger for the sum of $12,500, and accepted from said F. S. Bill No. 7530, Ordinance No. 7039 (New Series), as follows:

Confirming the sale of land owned by the City and County of San Francisco, heretofore set aside for Fire Department purposes.

Whereas, by Ordinance No. 6939, approved January 21, 1926, the Board of Supervisors determined that public interest and necessity demanded the sale of land hereinafter described and hereinbefore referred to as formerly dedicated for Fire Department purposes, and by said ordinance directed the Mayor of the City and County to sell all of said land at public auction, to be held on or before the 15th day of February, 1926, and directed that notice of said sale be given for three weeks successively next before the sale as required by law; and

Whereas, the Clerk of the Board of Supervisors thereafter proceeded to publish notice of said sale in the official newspaper and one other daily newspaper published in the City and County for three weeks successively next before said sale was directed to be made, describing the land to be sold therein with common certainty and stating the date on or after which said sale would be made, as specified in Ordinance No. 6939 (New Series), and that all bids or offers would be received by the Mayor at the chambers of the Board of Supervisors in the City Hall, City and County of San Francisco, State of California, on or after said date; and

Whereas, the Mayor, the Assessor and the chairman of the Finance Committee, being the Board of Appraisement constituted by the Charter of the City and County of San Francisco for such purpose, thereafter duly met and made an appraisement of said land and fixed the fair value thereof at the sum of $3,000 and reported said appraisement to the Board of Supervisors in writing; and

Whereas, thereafter and on the 15th day of February, 1926, at public auction, the Mayor sold said property to J. F. Dowling for the sum of $3,700 and accepted from said J. F. Dowling a deposit in cash in the amount of $370, being ten per cent of the amount bid as aforesaid, and thereupon and on the 18th day of February, 1926, duly notified the Board of Supervisors in writing of the fact of such sale, stating the sum bid, the name of the bidder and requesting that the Board confirm the sale; and

Whereas, the Clerk of the Board of Supervisors immediately thereupon proceeded to give notice by publication in the official newspaper and one other newspaper published in the City and County of San Francisco for a period of twenty days from and after the 26th day of February, 1926, that at a meeting of the Board of Supervisors to be held on the 22d day of March, 1926, the matter of said sale would come up for confirmation, stating also in said notice the fact of the sale, the amount for which the property had been sold as aforesaid, and the name of the purchaser, and also stating that if at such meeting on the 22d day of March, 1926, an offer of 10 per cent more in amount than that named in said notice should be made to the Supervisors in writing by a responsible person, the Supervisors would confirm such sale to such person or order a new sale; and

Whereas, the date of confirmation specified in said notice has now

arrived and a higher bid has not been obtained, and it appearing to the Board of Supervisors that the sum of $3,700 bid as aforesaid by J. F. Dowling is not disproportionate to the value of the property sold and that a greater sum cannot be obtained; therefore,

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The said sale of the said land hereinafter described to J. F. Dowling for the sum of $3,700 is hereby ratified, approved and confirmed, and the Mayor and the Clerk of the Board of Supervisors are hereby authorized to execute and deliver to said purchaser, upon payment of the balance of the purchase price, a good and sufficient conveyance in the name of the City and County of San Francisco, conveying to J.
